

2024 Emergency Solutions Grants Program Draw Request Documentation Standards

Reimbursement Requirements

Tips to ensure quicker processing times:

- Ensure all information entered into GMS matches supporting documentation (paid date, pay period dates, amount and vendor).
- Ensure all documentation is in the same order as the line items in GMS. Combine documentation into one PDF or one PDF per activity.
- ✓ Ensure draws are submitted monthly, at minimum. No more than 5 draws submitted per month.
- ✓ Draw request minimum \$1,000 unless final draw or monthly cumulative total is less than \$1,000.
- ✓ If your agency has multiple grants overhead costs, salaries, data entry, etc. must be split between those grants and not charged to ESG at 100%.
- ✓ Costs that incur before July 1, 2024 and after June 30, 2025 are not eligible for 2024 reimbursement. Bills outside of the grant term must be prorated.
- ✓ ESG does not reimburse state taxes.
- ✓ Each client receiving ESG assistance must be entered on separate line items in GMS
- ✓ If your organization is a domestic violence agency, you do not have to list the client's name or payee/vendor if it will compromise the client, however, all other detail data fields must be completed.

- ✓ Match dollars must be incurred in the same grant year funds are awarded.
- If you are using a large sum for match like the cost of a building or another grant, please include the entire portion of match in one draw rather than splitting the match by each draw request.
- ✓ Matching funds must used in accordance with all requirements that apply to ESG grant funds, except for the expenditure limits in 24 CFR 576.100. This includes requirements such as documentation requirements, eligibility requirements, and eligible costs.
