

Ralph M. Perrey, Executive Director

MEMORANDUM: Wx 24-05

TO: Weatherization Program Subgrantees & Energy Auditors

FROM: Aaron Walker, Technical Advisor for Weatherization *AW*

DATE: July 28, 2025

SUBJECT: SCC Rescinded and Cost Libraries Update

Purpose: The Social Cost of Carbon (SCC) has been removed from the fuel cost library to comply with the release of [WAP Memorandum 144](#).

Guidance: Effective immediately, all projects must be modeled using the 2025 Fuel Cost library. Any audits found to be out of compliance may be at risk of measures or projects being disallowed.

The Supply library has been updated to include current pricing and contains corrections to insulation type for manufactured homes. With the reduction in fuel cost and increase in supply libraries, some measures that were previously called for may no longer be deemed cost effective.

Please report back any issues with the libraries to AWalker@thda.org. For general questions, please continue to reach out to your agency's assigned coordinator, or WAP@thda.org.
