<sup>&</sup>lt;sup>1</sup> All Programs total include Great Rate, Great Advantage, Great Start, Great Choice, Great Choice Plus and New Start program loans. It also includes the loans with Homeownership for the Brave discount. It does not include the second loans.

<sup>&</sup>lt;sup>2</sup> The second loans of borrowers who used the Great Choice Plus Program are not included in the all program totals, total loan value or the average loan value of all loans.

<sup>&</sup>lt;sup>3</sup> In addition to 1695 first loans in 2014, 1,492 second loans in the amount of \$7.3 million were funded, but the number of all loans and total and average loan values are for only the first loans, second loans are not included in the loan numbers and total and average loan amounts.

\_

<sup>&</sup>lt;sup>4</sup> The Great Choice Program in this table refers to the loans whose borrowers did not require a second loan for downpayment and/or closing costs. The Great Choice Plus Program refers to the first loans whose borrowers took second loan for downpayment and/or closing costs. The second loans are not included in the discussion of those characteristics.

<sup>&</sup>lt;sup>5</sup> Down payment as percent of acquisition cost is calculated only for the loans with a down payment. <sup>6</sup> Even though the first-time homeownership requirement is waived for someone who purchases a home in a targeted area, only one THDA borrower was not a first-time homebuyer.

<sup>\*</sup>In the counties with 5 or less loans, the information about the borrower's age, the income of the borrower and the acquisition cost are suppressed to protect the anonymity of the borrowers.

Map 1: Service Index by County, 2014<sup>7</sup>

<sup>&</sup>lt;sup>7</sup> The service index is computed as a ratio derived from the distribution of all THDA loans and the distribution of eligible households in Tennessee, which are households whose median income fell between 30% and 100% of the state's median income. This calculation is different than the previous years because we included both the renter and owner households in eligible population. This is more accurate because first-time homebuyer requirement is waived for borrowers who are purchasing a home in a targeted area and the veterans. Therefore, the current homeowners are also part of eligible population. Comprehensive Housing Affordability Strategies (CHAS) data was utilized in the analysis. We used 2007-2011 CHAS data to determine the eligible households for all the counties.
