

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to the U.S. Department of the Treasury. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to the U.S. Department of the Treasury must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 45th day following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

Template Version Date: October 2017

Line 24: In the third quarter of 2017, there was a total of \$273,483.93 in ongoing assistance provided to homeowners still in the program.

Line 39: As explained in the following footnote, the number of borrowers who completed the program was reported higher in error. In the current report this number was corrected.

Line 61: In the previous quarter, when counting the borrowers who completed the program through reinstatement/current/payoff, borrowers who still had mortgage assistance available were not taken into account. Therefore, the previous quarter borrowers who completed the program were reported incorrectly. In the current quarter, we corrected this mistake.
