

This document describes the Housing Finance Agency (HFA) Hardest-Hit Fund (HHF) data that state HFAs are required to provide to Bank of New York Mellon. It includes quarterly borrower characteristic data and program specific performance data. All HFA HHF data submitted to Bank of New York Mellon must be accurate, complete, and in agreement with retained HFA records. Data should be reported by each state HFA by the 45th day following the quarter.

Data requested in the "Borrower Characteristic" worksheet should be reported in aggregate for all HHF programs run by the state HFA. Program specific data is separated into reporting tabs for each individual program. State HFAs should report program performance data on an individual program basis. A data dictionary has been provided to assist in the definition of each data point.

**Since applications marked as denied or withdrawn in previous quarters may be reconsidered due to a change in borrower circumstances, some unique borrower counts may not sum in a quarter-over-quarter fashion.

^One borrower was approved, funded and reported in July 2012 (Q3_2012). After payment was made, the servicer (Bank of America) returned the funds, and withdrew the borrower from the HHF program so they could be reviewed for their DOJ program.

^^Two (2) previously denied borrowers were reconsidered after the changes made to the eligibility criteria: one of them withdrew application and the other was still in application process as of 12/31/2012. Therefore, the cumulative number of borrowers reported as "denied" is different than the number reported in the third quarter of 2012.

^^^Two borrowers withdrew their applications in the earlier quarters, then reapplied and started receiving assistance. Two applicants withdrew their applications previously, but were reported as "still in application".

^^^^One borrower in the fourth quarter of 2012 was multi racial, one borrower was reported as Hispanic and two borrowers as other/unknown, which are not one of the race categories in this list. Therefore, these borrowers were reported as "information not provided by borrower" to eliminate the speculation.

*The cumulative program expenses do not equal the prior QFR/QPR cumulative program expenses plus the current quarter program expenses. The September 30 2012 QFR/QPR reported lien

satisfaction recoveries as a reduction of program expenses. In addition, the prior QFR did not contain a cash flow reconciliation. Performing such reconciliation revealed immaterial errors in prior

reports. The total variance between the amount reported on this QFR as cumulative and the amount of the 9/30/12 QFR/QPR as cumulative program expenses plus the QTD in this report is \$550.61

This variance resulted in a reduction of cumulative program expenses as compared to the prior cumulative amount plus the QTD in this report.

**The cumulative administrative expenses do not equal the prior QFR cumulative administrative expenses plus the current quarter administrative expenses. The prior QFR did not contain a cash flow

reconciliation. Performing such reconciliation revealed immaterial errors in earlier reports. The total variance between the amount reported on this QFR as cumulative and the amount of the

September 30, 2012 QFR as cumulative administrative expense plus the QTD administrative expense is \$51,857.34 (.01% of the prior QFR cumulative administrative expenses). This variance

resulted in a reduction of cumulative administrative expense as compared to the prior cumulative amount plus the QTD in this report.

*One borrower who was approved and funded withdrew his application, but we mistakenly did not report it as "cancelled" in the previous quarter.

**Ten (10) loans were mistakenly reported as completed the program in the previous quarter's report. Nine (9) borrowers who completed the program had alternative outcomes in the following quarters, but we forgot to deduct them. Six (6) borrowers who completed the program had alternative outcomes during the fourth quarter of 2012. Therefore, the cumulative number of borrowers transitioned out of the program due to reinstating/bringing loan current or paying off their mortgage loan is different.
