ESCROW FUND

DESCRIPTION

THDA has established an escrow fund for the purpose of holding funds that do not belong to THDA but in which the agency has an interest.

The Escrow Fund in the 1974 Bond Resolution holds reserves and interest earnings for multi-family developments financed by THDA in the late 1970's and early 1980's. There are currently 28 multi-family mortgages outstanding and therefore 28 developments that have funds in the escrow account. THDA administers the federally funded Section 8 Project-based rental assistance program, and these 28 developments are part of that program.

Each month THDA receives mortgage payments from the properties. Out of these mortgage payments an amount is set aside and transferred to the escrow fund. Within the escrow fund amounts are allocated for the following purposes (distributions):

- Property taxes - paid on behalf of the property annually
- Insurance - paid on behalf of the property annually
- Replacement Reserves – paid as needed for capital improvements, etc. The property must request a distribution from these funds and THDA staff must review the request to ensure it is an appropriate use of the reserves.
- Earnings Distributions - The owners of these developments are allowed to withdraw a portion of their interest earnings at the end of each calendar year for earnings distributions for themselves and their partners.

THDA attempts to maximize earnings in this portfolio by investing most of the funds in longer-term instruments, while maintaining sufficient liquidity to meet the financial requirements of these distributions.

ARBITRAGE

DESCRIPTION

Arbitrage, in part is defined as “the simultaneous purchase and sale of the same or equivalent security in order to profit from price discrepancies”.

This relates to THDA as it is applied to the use of proceeds from tax-exempt bonds, specifically the use of such bond proceeds or earnings from such proceeds to purchase taxable non-mortgage investments. Any excess earnings over the cost of borrowing (bond rate) are arbitrage earnings and must be rebated to the Internal Revenue Service.

This is a net calculation and is computed annually. Attached is a spreadsheet showing the arbitrage liability by bond issue as of 6/30/06. Every five years, on the anniversary date of each bond issue, for the life of the bond issue, cash settlement has to be made with the IRS. If earnings for a five-year period are less than what the investments would have earned at the bond rate, no payment is due the IRS. If the earnings are more than what would have been earned at the bond rate, cash payment of the excess must be paid to the IRS. THDA has contracted with Kutak Rock to make these complex calculations.

From an Investment management performance measurement standpoint, THDA knows that if there is a rebate liability for a bond issue, then the agency has maximized earnings for that particular issue. This is probably the best benchmark of all because as mentioned above any earnings in excess of bond cost cannot be retained by the agency.

- I. **SCOPE:** It is intended that this policy apply to the investment of all non-mortgage assets of the Tennessee Housing Development Agency (Agency), including those assets pledged to holders of the Agency's bonds.
- II. **AUTHORITY:** Section 5 of Chapter 900 of the Acts of 1988 (Tennessee Code Annotated, Section 13-23-112) requires the Agency to establish an investment policy for assets of the Agency. The State Treasurer is responsible for investing Agency assets in accordance with the duly adopted investment policy. The State Treasurer, in his sole discretion, may delegate to the Executive Director any portion of investment responsibilities deemed appropriate.
- III. **OBJECTIVES:**
- A. Safety of principal is the foremost objective, followed by liquidity and yield. Each investment transaction shall seek to first ensure that capital losses are avoided, whether they be from securities defaults or erosion of market value.
 - B. Investment decisions should not incur unreasonable investment risks in order to obtain current investment income.
 - C. The combined Agency portfolios shall remain sufficiently liquid to enable the Agency to meet all operating requirements.
 - D. Agency portfolios shall be designed to attain a market-average rate of return throughout budgetary and economic cycles, taking into account investment risk constraints, the cash flow characteristics of the Agency, and State law that restricts the placement of short-term funds.
 - E. Agency portfolios will be diversified to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.
 - F. While the Agency will not make investments for the purpose of trading or speculating as the dominant criterion, the Agency shall seek to enhance total portfolio return by means of active portfolio management. The prohibition of speculative investments precludes pursuit of gain or profit through unusual risk. However, trading in response to changes in market value or market direction is warranted under active portfolio management.
 - G. All participants in the investment process shall act responsibly as custodians of the public trust. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.
- IV. **PRUDENCE:** The standard of prudence to be used by all officials responsible for the investment of Agency assets shall be the "prudent man rule" which obligates a fiduciary to ensure that:
- ". . . investment shall be made with the exercise of that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation but for investment, considering the probable safety of their capital as well as the probably income to be derived."
- V. **ELIGIBLE INVESTMENTS:** Eligible investments for Agency assets shall include only investment instruments authorized for state funds pursuant to Tennessee Code Annotated, Section 9-4-602 and investments in the State Pooled Investment Fund established pursuant to Tennessee Code Annotated, Section 9-4-603. To the extent Agency assets are invested in certificates of deposit, such investment shall be accomplished through participation in the State Pooled Investment Fund. To the extent the Agency's eligible investments must be secured, "eligible collateral" acceptable as such security may include any items defined as eligible collateral in Tennessee Code Annotated Section 9-4-103 or repurchase agreements that meet all requirements of Section V.C. The Agency, at its option or as required under its bond

resolutions or other agreements with bondholders, may select or further restrict the types of eligible investments or the types of eligible collateral that may be used or may further restrict the levels of valuation of eligible collateral.

- A. Investment in U.S. government securities may constitute one hundred percent (100%) of the portfolio due to the absence of credit risk in this market.
- B. Securities shall be purchased through authorized broker/dealers for the security to be acquired. All transactions will be executed on a delivery versus payment basis. Due bills or notes are not acceptable as collateral in lieu of the purchased security.
- C. The following terms and conditions shall apply to investments in repurchase agreements:
 - 1. The seller and the Agency shall enter into a master repurchase agreement in a form approved by the State Treasurer, and the Attorney General and Reporter.
 - 2. Securities purchased under the repurchase agreement shall be limited to obligations of the United States Government or its agencies.
 - 3. At the time of purchase, the market value of the securities shall be equal to or greater than one hundred two percent (102%) of the cash investment.
 - 4. Securities shall be marked-to-market daily and shall be maintained at a value equal to or greater than the original cash investment amount, including accrued interest on such amount.
 - 5. The seller and the Agency may enter into an agreement with an independent custodian bank ("Custodian") in a form approved by the State Treasurer, and the Attorney General and Reporter pursuant to which the Custodian will provide transfer and safekeeping services for all securities and/or cash in connection with all repurchase transactions governed by the master repurchase agreement. For purposes of this provision, "independent custodian bank" means a bank which is not related to the seller nor the Agency through shared ownership or control.
 - 6. All securities purchased under a repurchase agreement shall be held in an account of the Agency under the control of either the Trustee or the State Treasurer, unless the seller and the Agency have entered into a custodial agreement pursuant to Paragraph 5 above. In such event, the securities shall be held in an account of the Agency with the Custodian.
 - 7. The seller may, at any time, substitute other securities or equal or greater market value for any purchased securities provided such other securities are obligations of the United States Government or its agencies.
 - 8. Repurchase agreements may be entered into only with sellers approved for use by Treasury Department portfolio managers, unless an exception is granted by the Bond Finance Committee.
 - 9. The maturity date of the securities purchased under a repurchase agreement shall exceed the term of the repurchase agreement. All securities purchased by the Agency shall be delivered simultaneously against payment to either the State Treasurer, or to an account of the Agency at the Trustee or the Custodian or, in the case of definitive securities, as provided in the master repurchase agreement.
 - 10. The transactions under each individual repurchase agreement shall be confirmed by the seller to the Agency. Each confirmation shall clearly describe the purchased securities (including the CUSIP number, if any), identify the Agency and the seller, and set forth

(a) the purchase date, (b) the purchase price, (c) the repurchase date, unless the transaction is to be terminable on demand, and (d) the pricing rate or repurchase price applicable to the transaction. Upon receipt, the confirmation shall be reviewed to insure that the terms contained therein correspond exactly to the terms negotiated by the parties. Any discrepancies appearing on the confirmation shall be conclusive grounds for terminating the repurchase agreement or renegotiating its terms, as may be appropriate. Upon a renegotiation of terms, a corrected confirmation shall be requested.

(Section V.C. amended by Board Resolution on July 20, 1995.)

- D. Special conditions for collateralized guaranteed investment contracts: The Agency may invest its assets in guaranteed investment contracts of longer than one (1) year with a select few of the highest quality foreign and domestic banks, domestic brokerage firms, or domestic insurance companies, as selected by the Agency upon the advice of its financial adviser. Such guaranteed investment contracts shall be secured by a perfected, first priority security interest in eligible collateral, as defined in Section V. The provider of the guaranteed investment contract and the Agency shall enter into a master guaranteed investment agreement, in a form approved by the State Treasurer, and/or other contracts or agreements as approved by the State Treasurer and the Attorney General and Reporter.

Eligible collateral shall have an initial market value of at least 102% of the principal amount of the cash investment. If the aggregate market value of the eligible collateral is less than 100% of the cash investment, then additional eligible collateral sufficient to bring the aggregate market value of all eligible collateral to at least 102% of the cash investment shall be required.

(Section V.D. added by Board Resolution on November 16, 1995.)

- VI. **MONITORING AND ADJUSTING THE PORTFOLIO:** On a routine basis, the contents of the portfolio, the available markets and the relative values of completing instruments will be monitored and the portfolio adjusted accordingly.
- VII. **INTERNAL CONTROLS:** The Agency shall establish a system of internal controls which shall be documented in writing. The controls shall be designed to prevent losses of funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the Agency. Controls deemed most important include: control of collusion, separation of duties, separating transaction authority from accounting and record keeping, custodial safekeeping, clear delegation of authority, written confirmation of telephone transactions, minimizing the number of authorized investment officials, documentation of transaction strategies, and code of ethics.

The Executive Director shall provide to the State Treasurer a copy of the report of internal controls submitted to the Comptroller of the Treasury in accordance with the Financial Integrity Act.

- VIII. **COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS:** Before investment of any Agency funds, a competitive "bid" process shall be conducted. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, bids will be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend (yield curve) analysis will be conducted to determine which maturities would be most advantageous. Bids will be requested for various options with regards to eligible investment instruments. The bid which provides the highest rate of return within the maturity required and within the parameters of these policies will be accepted. Records will be kept of the bids offered, the bids accepted and a brief explanation of the decision which was made regarding the investment. Exceptions to the competitive placement of Agency investments are permissible as market conditions warrant and will be documented in the Agency's files.
- IX. **BROKER/DEALER SELECTION AND REVIEW:** Repurchase agreements will only be transacted with primary government securities dealers that report to the New York Federal Reserve Bank and who complete the Agency's master repurchase agreement. The Agency shall periodically review the list of

primary dealers from the New York Federal Reserve Bank to determine which dealers have been added or deleted.

For purchase of securities on a delivery versus payment basis, any broker/dealer that gives priority to institutional trading over regular retail trading customers and exemplifies satisfactory performance in bidding and settlement of transactions will be authorized to bid on security acquisitions. An authorization letter (sample attached) will be sent to each authorized dealer. If a dealer is consistently unsuccessful in bidding and/or unsatisfactorily fulfills bids they have received, they will be removed from the approved list of dealers for six months. The list of approved broker/dealers shall be reviewed and updated periodically.

- X. **SAFEKEEPING:** All Agency investment securities shall be held by the Trustee or the State Treasurer. The party holding such securities shall issue a safekeeping receipt listing the specific instrument, rate, maturity and other pertinent information.

XI: **REPORTING**

Periodic: The Executive Director of the Tennessee Housing Development Agency shall submit a quarterly investment report to the Bond Finance Committee. This report will describe the portfolio activity during the period and compute the average yield and average maturity of the portfolio and list the acquisitions and dispositions during the quarter. The report shall summarize the investment strategies employed in the most recent period, describe the investment portfolios in terms of investment securities, maturities, yield and average maturity of the combined portfolios. A report will be presented of the pro rata debt service requirements by month for the next 12 months chronologized by debt service payment dates. Each report shall indicate any areas of policy concern and suggested or planned revision of investment strategies.

Annual: Within 90 days of the end of the fiscal year, the Executive Director of the Tennessee Housing Development Agency shall present a comprehensive annual report on the investment program and investment activity to the Bond Finance Committee. This report shall include twelve-month comparisons or return, shall suggest policies and improvements that might enhance the investment program, and include an investment plan for the ensuing fiscal year.

- XII. **DIVERSIFICATION:** The Tennessee Housing Development Agency should diversify investment portfolios in order to reduce the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. The following strategies and constraints shall apply:

- A. Portfolio maturities shall be staggered in a way that avoids undue concentrations of assets in a specific maturity sector. Maturities shall be selected which provide for stability of income and reasonable liquidity.
- B. It is the intent of this policy that sufficient investments be scheduled to mature to provide for the required liquidity for debt service and other expenditures per resolution requirements. A minimum of the pro rata cumulative debt service requirement at the end of each month for the then current bond year for each bond resolution must mature to meet the debt service payment dates. A schedule showing the cumulative debt service requirement by month shall be kept on file at the Agency.

In addition a minimum of five percent (5.00%) of the par value of total investments must mature within five years. No more than fifty percent (50.00%) of the par value of the combined portfolios can be invested in maturities of greater than fifteen (15) years without the approval of the Bond Finance Committee.

- XIII. **RISK TOLERANCE:** Investment risks can result from issuer defaults, market price changes, or various technical complications leading to temporary illiquidity. Portfolio diversification is employed as a way to control risk. Investment managers are expected to display prudence in the selection of securities, as a way to minimize default risk.

- XIV. **OPERATING PROCEDURES:** Written operating procedures to implement the provisions of the Agency investment policy shall be established. These procedures shall be subject to the review and approval of the State Treasurer.
- XV. **BOND RELATED FUNDS:** Funds held by the Agency under the 1974, 1981 and 1985 Resolutions shall be subject to the applicable Resolution requirement. Since the fund and account structure arises by Resolution, each type of receipt will be discussed rather than each fund and account.
- A. General Fund: This fund is the recipient of excess funds transferred from the 1974 Resolution Revenue Fund. These funds represent the amount remaining after setting aside the pro rata debt service requirement on each interest and principal payment date. Conversely, any deficit in the Revenue Fund needed to meet debt service is funded from the General Fund. Short term liquidity should be maintained in order to meet any monthly deficit that might occur in the Revenue Fund. Funds which are awaiting investment shall be invested in an interest-bearing account.
 - B. Undistributed Bond Proceeds Fund: These funds represent the proceeds from the sale of bonds, prior to being disbursed for the purpose of making mortgage loans, paying cost of issuance and capitalized interest. These funds shall be invested in eligible investments with maturities scheduled to assure that funds are available to fund loans. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - C. Servicing Agent Funds: These funds represent amounts remitted to servicing agents for payment of principal and interest on Agency mortgage loans. These funds are accumulated by the mortgage servicers and periodically remitted to the Trustee for deposit into the appropriate fund. Servicing agent funds, when remitted to the Trustee, shall be deposited in interest-bearing accounts with interest accruing to the Agency. These accounts shall be fully insured and/or collateralized to the benefit of the Agency. The Agency shall monitor such accounts and, when warranted, funds will be invested in securities with maturities dictated by the debt service requirements.
 - D. Debt Service Reserve Funds: These funds represent one (1) year of principal and interest payments on each Agency bond issue. Debt Service Reserve funds shall be invested in eligible investments with maturities as established by the Bond Finance Committee in consultation with the Agency's investment advisor/underwriter. All 1974 and 1981 Resolution Debt Service Reserve funds shall be invested by the Trustee. All 1985 Resolution Debt Service Reserve Funds shall be invested by the State Treasurer or the Trustee. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - E. Escrow Account Funds: These funds represent funds held in trust by the Agency for the purpose of paying taxes, insurance and other obligations for the mortgagors of multi-family projects financed under the 1974 Resolution. The funds are short to intermediate term in nature and are to be invested with a maturity schedule which ensures sufficient liquidity to honor the obligations of the Escrow Account Fund. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - F. Other Funds: These funds include all non-mortgage investment income (interest on non-mortgage investments, fees, penalties, etc.). These funds shall be deposited in accounts as provided in the Resolution fund structure.
- XVI. **OTHER AGENCY FUNDS:** Funds held by the Agency which are not being held under a specific bond resolution shall be subject to the following investment limitations and conditions.
- A. Assets Fund: These funds represent excess amounts which have been withdrawn from individual bond resolutions in accordance with the terms of the applicable resolution. In addition, at the direction of the Board, portions of the Assets Fund may be invested for the program purposes of the Agency. These funds provide for monthly interest income transfers to the Housing Program Fund.

- B. Housing Program Fund: These funds represents the operating reserves of the Agency which are used to fund Agency administrative costs, pay certain expenses of bond issues, make grants to eligible political subdivisions and not-for-profit corporations and support the growth of the Housing Program Reserve Fund.

- C. Housing Program Reserve Fund: This fund consists of excess funds transferred from the Assets Fund and the Housing Program Fund. Income from investments in this fund are transferred to the Housing Program Fund at least annually. In addition, at the direction of the Board, portions of the Housing Program Reserve Fund may be invested for the program purposes of the Agency.

XVII. ADOPTION

This investment policy was adopted by the Tennessee Housing Development Agency Board of Directors on September 14, 1993.

EXECUTIVE SUMMARY

THDA Finance Team:

Trent Ridley, CFO

Wayne Beard, Finance Director

Joe Brown, Controller

March 13, 2007

**Important Transactions during the past Quarter:*

- 1) THDA introduced a new mortgage product, Great Advantage, during the quarter. Loans in this program provide the borrower with 2% of the loan principal to assist with their down payment and closing costs and carry an interest rate that is 50 basis points higher than our standard mortgage (Great Rate). As some borrowers move to this product from the Great Start 4% assistance program, the amount of cash to be temporarily invested could increase.
- 2) Bond Issue 2006-3 was closed on October 31, 2006. This transaction resulted in \$103,584,640 in single family mortgage proceeds. UBS was the lead underwriter. The transaction resulted in maximum mortgage rates of 5.40% 5.90% and 6.40%, a 40 basis point decrease from the previous bond issue.
- 3) Mortgage production slowed during the quarter, with \$78 million in applications. This was a 27.1% decrease from the previous quarter (\$107 million), but a 21.7% increase from the fourth quarter of 2005 (\$64.1 million). The quarter to quarter decrease is attributable to normal seasonal trends. The strong increase in the year to year production can be attributed to an increase in outside rates from the previous year, as well as continued outreach efforts by THDA staff.
- 4) Mortgage prepayments decreased during the quarter, but still resulted in a significant cash flow to be reinvested until time to call bonds. During the past quarter \$34.5 million was received by the agency in prepayments. This was a 17.8% decrease from last quarter (\$41.9 million) and a 15.7% decrease from the third quarter of 2005 (\$40.9 million).
- 5) The Federal Reserve did not raise rates this quarter. The overnight rate remained steady at 5.25%. Speculation is mixed on what the Fed may do in the first half of 2007.

GENERAL FUND

DESCRIPTION

The General Fund was established under the 1974 Resolution and was funded from earnings above and beyond the debt cost of THDA Bond Issues that were done early in the existence of the agency (see discussion of float/equity funds under tab #5 in this report).

On December 31, 1998 mortgages from bond issue 1994-1 in the 1985 Resolution were transferred to the General Fund in the 1974 Resolution after the bonds from that issue were completely paid off. Prepayments and repayments from those mortgages are deposited into the General Fund.

The assets in the General Fund can be used for a variety of purposes. Some uses of the General Fund Assets have been:

- 1) Provide funding for special mortgage loan programs
- 2) Pre-fund mortgage loans pending the closing of a bond issue
- 3) Pay certain expenses connected to debt issuance and financial analysis
- 4) Grants – THDA's board approved an agency funded grant program in FY 2000.
- 5) Beginning in July, 2003 some funds were used to call higher coupon debt from other bond issues in the 1974 resolution.

LOAN FUNDS

DESCRIPTION

Proceeds from a new bond sale that are earmarked for funding mortgage loans are deposited into the Loan Fund. THDA invests these proceeds from the day of closing (the first day the funds are received) until the funds are needed for mortgage loans. Consideration must be given to the maintenance of liquidity so those funds are available as mortgage loans are funded.

A major challenge for THDA in managing the investments in the loan fund is minimizing “negative arbitrage”. This results because the rates that can be earned with a short-term investment instrument are usually less than the cost of the new long-term debt from which the proceeds derived.

Occasionally an amount is set aside from bond proceeds to cover this shortfall. This amount is called “capitalized interest”. Another method that is sometimes used to minimize or eliminate negative arbitrage is the purchasing of longer-term investments with higher rates in the loan fund. The intent would be to sell such investments when cash is needed either on the open market, or if advantageous, to other THDA funds that are expected to have a foreseeable need for such investments.

FLOAT/EQUITY FUNDS

DESCRIPTION

Float Funds are considered to be the portion of funds at any given time in the various funds and accounts that will be needed for the next scheduled semi-annual Debt Service payment or for bond call from mortgage prepayment proceeds. Any excess that accumulates in the accounts is considered *Equity Funds*. These funds represent the cumulative net gain in any fund or group of funds. For both the Float and Equity funds, THDA's investment objective is a balancing act: to maximize earnings while achieving sufficient liquidity at January 1 and July 1 to meet debt service and bond call requirements.

The following funds hold the Float/Equity funds:

Revenue Fund (1974 Resolution):

- Revenue Account
- Prepayment Account

Revenue Fund (1985 Resolution):

- Debt Service & Expense Account (DS&E)
- Non-Mortgage Receipts Account (NMR)

The chart below depicts where the General Bond Resolutions specify the different types of receipts be deposited and held:

	<u>1974 Resolution</u>		<u>1985 Resolution</u>	
	<u>Revenue Account</u>	<u>Pre-payment Account</u>	<u>DS&E Account</u>	<u>NMR Account</u>
Mortgage Loan Principal & Interest	X		X	
Prepayment & Foreclosure Receipts		X	X	
Interest on Non-Mortgage Investments	X			X

There is no compelling reason for the Resolutions to be structured differently at the present time. When the Agency began operations in 1974, funds were very limited and debt service was monitored monthly. Each month 1/12th of the annual Debt Service Requirement for the current year was required to be retained in the Revenue Fund and any excess was transferred to the General Fund. If less than the monthly requirement was collected in any month a transfer was made from the General Fund in the amount of that month's deficit. After THDA became financially stronger this requirement was removed in a revision of the 1974 Resolution.

DEBT SERVICE RESERVE FUNDS (DSRF)

DESCRIPTION

These funds have been set aside from prior bond proceeds, and represent the maximum annual debt service for the life of the bonds. The Debt Service Reserve requirement is by Resolution rather than bond issue. The calculation of the DSRF is performed by the Financial Advisor at the time of a new bond issue as well as annually and is based on amortized value rather than market value (pursuant to the terms of the General Bond Resolutions)

For most of THDA's history, the standard practice has been to invest the DSRF in investments with approximately the same maturity of the longest-term bond. This practice has been at the advice of Underwriters, Financial Advisors and Rating Agencies. However, beginning in 1993 when rates were at historic lows the Rating Agencies required substantially shorter maturity DSRF investment since a 30-year investment would lose substantial value if rates increased substantially. Therefore since that time investment decisions for these funds have been influenced by market conditions at the time of the investments.

A Debt Service Reserve Fund analysis was last done by CSG Advisors, Inc. in conjunction with bond issue 2003 series A (for the 1974 resolution) and bond issue 2006-3 (for the 1985 resolution). The result of this analysis was that THDA needed to increase the Debt Service Reserve Fund for the 1985 Resolution by \$6,728,776. As of these reports, the Debt Service Reserve Fund requirement was \$30,445,395 for the 1974 Resolution and \$129,772,741 for the 1985 Resolution.

1985 Resolution	7.911%	7.927%	8.026%	8.129%

Benchmarks:

NOTE: DSRF Investments represent investments funded throughout the history of THDA. As older bond issues under which DSRF investments were purchased were refunded, the DSRF investments were transferred to the refunding issues, and at times even to several issues. Because of this a benchmark comparison to other current rates would be meaningless.

ESCROW FUND

DESCRIPTION

THDA has established an escrow fund for the purpose of holding funds that do not belong to THDA but in which the agency has an interest.

The Escrow Fund in the 1974 Bond Resolution holds reserves and interest earnings for multi-family developments financed by THDA in the late 1970's and early 1980's. There are currently 28 multi-family mortgages outstanding and therefore 28 developments that have funds in the escrow account. THDA administers the federally funded Section 8 Project-based rental assistance program, and these 28 developments are part of that program.

Each month THDA receives mortgage payments from the properties. Out of these mortgage payments an amount is set aside and transferred to the escrow fund. Within the escrow fund amounts are allocated for the following purposes (distributions):

- Property taxes - paid on behalf of the property annually
- Insurance - paid on behalf of the property annually
- Replacement Reserves – paid as needed for capital improvements, etc. The property must request a distribution from these funds and THDA staff must review the request to ensure it is an appropriate use of the reserves.
- Earnings Distributions - The owners of these developments are allowed to withdraw a portion of their interest earnings at the end of each calendar year for earnings distributions for themselves and their partners.

THDA attempts to maximize earnings in this portfolio by investing most of the funds in longer-term instruments, while maintaining sufficient liquidity to meet the financial requirements of these distributions.

ARBITRAGE

DESCRIPTION

Arbitrage, in part is defined as “the simultaneous purchase and sale of the same or equivalent security in order to profit from price discrepancies”.

This relates to THDA as it is applied to the use of proceeds from tax-exempt bonds, specifically the use of such bond proceeds or earnings from such proceeds to purchase taxable non-mortgage investments. Any excess earnings over the cost of borrowing (bond rate) are arbitrage earnings and must be rebated to the Internal Revenue Service.

This is a net calculation and is computed annually. Attached is a spreadsheet showing the arbitrage liability by bond issue as of 6/30/06. Every five years, on the anniversary date of each bond issue, for the life of the bond issue, cash settlement has to be made with the IRS. If earnings for a five-year period are less than what the investments would have earned at the bond rate, no payment is due the IRS. If the earnings are more than what would have been earned at the bond rate, cash payment of the excess must be paid to the IRS. THDA has contracted with Kutak Rock to make these complex calculations.

From an Investment management performance measurement standpoint, THDA knows that if there is a rebate liability for a bond issue, then the agency has maximized earnings for that particular issue. This is probably the best benchmark of all because as mentioned above any earnings in excess of bond cost cannot be retained by the agency.

- I. **SCOPE:** It is intended that this policy apply to the investment of all non-mortgage assets of the Tennessee Housing Development Agency (Agency), including those assets pledged to holders of the Agency's bonds.
- II. **AUTHORITY:** Section 5 of Chapter 900 of the Acts of 1988 (Tennessee Code Annotated, Section 13-23-112) requires the Agency to establish an investment policy for assets of the Agency. The State Treasurer is responsible for investing Agency assets in accordance with the duly adopted investment policy. The State Treasurer, in his sole discretion, may delegate to the Executive Director any portion of investment responsibilities deemed appropriate.
- III. **OBJECTIVES:**
- A. Safety of principal is the foremost objective, followed by liquidity and yield. Each investment transaction shall seek to first ensure that capital losses are avoided, whether they be from securities defaults or erosion of market value.
 - B. Investment decisions should not incur unreasonable investment risks in order to obtain current investment income.
 - C. The combined Agency portfolios shall remain sufficiently liquid to enable the Agency to meet all operating requirements.
 - D. Agency portfolios shall be designed to attain a market-average rate of return throughout budgetary and economic cycles, taking into account investment risk constraints, the cash flow characteristics of the Agency, and State law that restricts the placement of short-term funds.
 - E. Agency portfolios will be diversified to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.
 - F. While the Agency will not make investments for the purpose of trading or speculating as the dominant criterion, the Agency shall seek to enhance total portfolio return by means of active portfolio management. The prohibition of speculative investments precludes pursuit of gain or profit through unusual risk. However, trading in response to changes in market value or market direction is warranted under active portfolio management.
 - G. All participants in the investment process shall act responsibly as custodians of the public trust. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.
- IV. **PRUDENCE:** The standard of prudence to be used by all officials responsible for the investment of Agency assets shall be the "prudent man rule" which obligates a fiduciary to ensure that:
- ". . . investment shall be made with the exercise of that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation but for investment, considering the probable safety of their capital as well as the probably income to be derived."
- V. **ELIGIBLE INVESTMENTS:** Eligible investments for Agency assets shall include only investment instruments authorized for state funds pursuant to Tennessee Code Annotated, Section 9-4-602 and investments in the State Pooled Investment Fund established pursuant to Tennessee Code Annotated, Section 9-4-603. To the extent Agency assets are invested in certificates of deposit, such investment shall be accomplished through participation in the State Pooled Investment Fund. To the extent the Agency's eligible investments must be secured, "eligible collateral" acceptable as such security may include any items defined as eligible collateral in Tennessee Code Annotated Section 9-4-103 or repurchase agreements that meet all requirements of Section V.C. The Agency, at its option or as required under its bond

resolutions or other agreements with bondholders, may select or further restrict the types of eligible investments or the types of eligible collateral that may be used or may further restrict the levels of valuation of eligible collateral.

- A. Investment in U.S. government securities may constitute one hundred percent (100%) of the portfolio due to the absence of credit risk in this market.
- B. Securities shall be purchased through authorized broker/dealers for the security to be acquired. All transactions will be executed on a delivery versus payment basis. Due bills or notes are not acceptable as collateral in lieu of the purchased security.
- C. The following terms and conditions shall apply to investments in repurchase agreements:
 - 1. The seller and the Agency shall enter into a master repurchase agreement in a form approved by the State Treasurer, and the Attorney General and Reporter.
 - 2. Securities purchased under the repurchase agreement shall be limited to obligations of the United States Government or its agencies.
 - 3. At the time of purchase, the market value of the securities shall be equal to or greater than one hundred two percent (102%) of the cash investment.
 - 4. Securities shall be marked-to-market daily and shall be maintained at a value equal to or greater than the original cash investment amount, including accrued interest on such amount.
 - 5. The seller and the Agency may enter into an agreement with an independent custodian bank ("Custodian") in a form approved by the State Treasurer, and the Attorney General and Reporter pursuant to which the Custodian will provide transfer and safekeeping services for all securities and/or cash in connection with all repurchase transactions governed by the master repurchase agreement. For purposes of this provision, "independent custodian bank" means a bank which is not related to the seller nor the Agency through shared ownership or control.
 - 6. All securities purchased under a repurchase agreement shall be held in an account of the Agency under the control of either the Trustee or the State Treasurer, unless the seller and the Agency have entered into a custodial agreement pursuant to Paragraph 5 above. In such event, the securities shall be held in an account of the Agency with the Custodian.
 - 7. The seller may, at any time, substitute other securities or equal or greater market value for any purchased securities provided such other securities are obligations of the United States Government or its agencies.
 - 8. Repurchase agreements may be entered into only with sellers approved for use by Treasury Department portfolio managers, unless an exception is granted by the Bond Finance Committee.
 - 9. The maturity date of the securities purchased under a repurchase agreement shall exceed the term of the repurchase agreement. All securities purchased by the Agency shall be delivered simultaneously against payment to either the State Treasurer, or to an account of the Agency at the Trustee or the Custodian or, in the case of definitive securities, as provided in the master repurchase agreement.
 - 10. The transactions under each individual repurchase agreement shall be confirmed by the seller to the Agency. Each confirmation shall clearly describe the purchased securities (including the CUSIP number, if any), identify the Agency and the seller, and set forth

(a) the purchase date, (b) the purchase price, (c) the repurchase date, unless the transaction is to be terminable on demand, and (d) the pricing rate or repurchase price applicable to the transaction. Upon receipt, the confirmation shall be reviewed to insure that the terms contained therein correspond exactly to the terms negotiated by the parties. Any discrepancies appearing on the confirmation shall be conclusive grounds for terminating the repurchase agreement or renegotiating its terms, as may be appropriate. Upon a renegotiation of terms, a corrected confirmation shall be requested.

(Section V.C. amended by Board Resolution on July 20, 1995.)

- D. Special conditions for collateralized guaranteed investment contracts: The Agency may invest its assets in guaranteed investment contracts of longer than one (1) year with a select few of the highest quality foreign and domestic banks, domestic brokerage firms, or domestic insurance companies, as selected by the Agency upon the advice of its financial adviser. Such guaranteed investment contracts shall be secured by a perfected, first priority security interest in eligible collateral, as defined in Section V. The provider of the guaranteed investment contract and the Agency shall enter into a master guaranteed investment agreement, in a form approved by the State Treasurer, and/or other contracts or agreements as approved by the State Treasurer and the Attorney General and Reporter.

Eligible collateral shall have an initial market value of at least 102% of the principal amount of the cash investment. If the aggregate market value of the eligible collateral is less than 100% of the cash investment, then additional eligible collateral sufficient to bring the aggregate market value of all eligible collateral to at least 102% of the cash investment shall be required.

(Section V.D. added by Board Resolution on November 16, 1995.)

- VI. **MONITORING AND ADJUSTING THE PORTFOLIO:** On a routine basis, the contents of the portfolio, the available markets and the relative values of completing instruments will be monitored and the portfolio adjusted accordingly.
- VII. **INTERNAL CONTROLS:** The Agency shall establish a system of internal controls which shall be documented in writing. The controls shall be designed to prevent losses of funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the Agency. Controls deemed most important include: control of collusion, separation of duties, separating transaction authority from accounting and record keeping, custodial safekeeping, clear delegation of authority, written confirmation of telephone transactions, minimizing the number of authorized investment officials, documentation of transaction strategies, and code of ethics.

The Executive Director shall provide to the State Treasurer a copy of the report of internal controls submitted to the Comptroller of the Treasury in accordance with the Financial Integrity Act.

- VIII. **COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS:** Before investment of any Agency funds, a competitive "bid" process shall be conducted. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, bids will be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend (yield curve) analysis will be conducted to determine which maturities would be most advantageous. Bids will be requested for various options with regards to eligible investment instruments. The bid which provides the highest rate of return within the maturity required and within the parameters of these policies will be accepted. Records will be kept of the bids offered, the bids accepted and a brief explanation of the decision which was made regarding the investment. Exceptions to the competitive placement of Agency investments are permissible as market conditions warrant and will be documented in the Agency's files.
- IX. **BROKER/DEALER SELECTION AND REVIEW:** Repurchase agreements will only be transacted with primary government securities dealers that report to the New York Federal Reserve Bank and who complete the Agency's master repurchase agreement. The Agency shall periodically review the list of

primary dealers from the New York Federal Reserve Bank to determine which dealers have been added or deleted.

For purchase of securities on a delivery versus payment basis, any broker/dealer that gives priority to institutional trading over regular retail trading customers and exemplifies satisfactory performance in bidding and settlement of transactions will be authorized to bid on security acquisitions. An authorization letter (sample attached) will be sent to each authorized dealer. If a dealer is consistently unsuccessful in bidding and/or unsatisfactorily fulfills bids they have received, they will be removed from the approved list of dealers for six months. The list of approved broker/dealers shall be reviewed and updated periodically.

- X. **SAFEKEEPING:** All Agency investment securities shall be held by the Trustee or the State Treasurer. The party holding such securities shall issue a safekeeping receipt listing the specific instrument, rate, maturity and other pertinent information.

XI: **REPORTING**

Periodic: The Executive Director of the Tennessee Housing Development Agency shall submit a quarterly investment report to the Bond Finance Committee. This report will describe the portfolio activity during the period and compute the average yield and average maturity of the portfolio and list the acquisitions and dispositions during the quarter. The report shall summarize the investment strategies employed in the most recent period, describe the investment portfolios in terms of investment securities, maturities, yield and average maturity of the combined portfolios. A report will be presented of the pro rata debt service requirements by month for the next 12 months chronologized by debt service payment dates. Each report shall indicate any areas of policy concern and suggested or planned revision of investment strategies.

Annual: Within 90 days of the end of the fiscal year, the Executive Director of the Tennessee Housing Development Agency shall present a comprehensive annual report on the investment program and investment activity to the Bond Finance Committee. This report shall include twelve-month comparisons or return, shall suggest policies and improvements that might enhance the investment program, and include an investment plan for the ensuing fiscal year.

- XII. **DIVERSIFICATION:** The Tennessee Housing Development Agency should diversify investment portfolios in order to reduce the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. The following strategies and constraints shall apply:

- A. Portfolio maturities shall be staggered in a way that avoids undue concentrations of assets in a specific maturity sector. Maturities shall be selected which provide for stability of income and reasonable liquidity.
- B. It is the intent of this policy that sufficient investments be scheduled to mature to provide for the required liquidity for debt service and other expenditures per resolution requirements. A minimum of the pro rata cumulative debt service requirement at the end of each month for the then current bond year for each bond resolution must mature to meet the debt service payment dates. A schedule showing the cumulative debt service requirement by month shall be kept on file at the Agency.

In addition a minimum of five percent (5.00%) of the par value of total investments must mature within five years. No more than fifty percent (50.00%) of the par value of the combined portfolios can be invested in maturities of greater than fifteen (15) years without the approval of the Bond Finance Committee.

- XIII. **RISK TOLERANCE:** Investment risks can result from issuer defaults, market price changes, or various technical complications leading to temporary illiquidity. Portfolio diversification is employed as a way to control risk. Investment managers are expected to display prudence in the selection of securities, as a way to minimize default risk.

- XIV. **OPERATING PROCEDURES:** Written operating procedures to implement the provisions of the Agency investment policy shall be established. These procedures shall be subject to the review and approval of the State Treasurer.
- XV. **BOND RELATED FUNDS:** Funds held by the Agency under the 1974, 1981 and 1985 Resolutions shall be subject to the applicable Resolution requirement. Since the fund and account structure arises by Resolution, each type of receipt will be discussed rather than each fund and account.
- A. General Fund: This fund is the recipient of excess funds transferred from the 1974 Resolution Revenue Fund. These funds represent the amount remaining after setting aside the pro rata debt service requirement on each interest and principal payment date. Conversely, any deficit in the Revenue Fund needed to meet debt service is funded from the General Fund. Short term liquidity should be maintained in order to meet any monthly deficit that might occur in the Revenue Fund. Funds which are awaiting investment shall be invested in an interest-bearing account.
 - B. Undistributed Bond Proceeds Fund: These funds represent the proceeds from the sale of bonds, prior to being disbursed for the purpose of making mortgage loans, paying cost of issuance and capitalized interest. These funds shall be invested in eligible investments with maturities scheduled to assure that funds are available to fund loans. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - C. Servicing Agent Funds: These funds represent amounts remitted to servicing agents for payment of principal and interest on Agency mortgage loans. These funds are accumulated by the mortgage servicers and periodically remitted to the Trustee for deposit into the appropriate fund. Servicing agent funds, when remitted to the Trustee, shall be deposited in interest-bearing accounts with interest accruing to the Agency. These accounts shall be fully insured and/or collateralized to the benefit of the Agency. The Agency shall monitor such accounts and, when warranted, funds will be invested in securities with maturities dictated by the debt service requirements.
 - D. Debt Service Reserve Funds: These funds represent one (1) year of principal and interest payments on each Agency bond issue. Debt Service Reserve funds shall be invested in eligible investments with maturities as established by the Bond Finance Committee in consultation with the Agency's investment advisor/underwriter. All 1974 and 1981 Resolution Debt Service Reserve funds shall be invested by the Trustee. All 1985 Resolution Debt Service Reserve Funds shall be invested by the State Treasurer or the Trustee. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - E. Escrow Account Funds: These funds represent funds held in trust by the Agency for the purpose of paying taxes, insurance and other obligations for the mortgagors of multi-family projects financed under the 1974 Resolution. The funds are short to intermediate term in nature and are to be invested with a maturity schedule which ensures sufficient liquidity to honor the obligations of the Escrow Account Fund. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - F. Other Funds: These funds include all non-mortgage investment income (interest on non-mortgage investments, fees, penalties, etc.). These funds shall be deposited in accounts as provided in the Resolution fund structure.
- XVI. **OTHER AGENCY FUNDS:** Funds held by the Agency which are not being held under a specific bond resolution shall be subject to the following investment limitations and conditions.
- A. Assets Fund: These funds represent excess amounts which have been withdrawn from individual bond resolutions in accordance with the terms of the applicable resolution. In addition, at the direction of the Board, portions of the Assets Fund may be invested for the program purposes of the Agency. These funds provide for monthly interest income transfers to the Housing Program Fund.

- B. Housing Program Fund: These funds represents the operating reserves of the Agency which are used to fund Agency administrative costs, pay certain expenses of bond issues, make grants to eligible political subdivisions and not-for-profit corporations and support the growth of the Housing Program Reserve Fund.

- C. Housing Program Reserve Fund: This fund consists of excess funds transferred from the Assets Fund and the Housing Program Fund. Income from investments in this fund are transferred to the Housing Program Fund at least annually. In addition, at the direction of the Board, portions of the Housing Program Reserve Fund may be invested for the program purposes of the Agency.

XVII. ADOPTION

This investment policy was adopted by the Tennessee Housing Development Agency Board of Directors on September 14, 1993.

EXECUTIVE SUMMARY

THDA Finance Team:

Trent Ridley, CFO

Wayne Beard, Finance Director

Joe Brown, Controller

July 7, 2006

**Important Transactions during the past Quarter:*

- 1) Bond Issue 2006-2 was closed on July 27, 2006. This transaction resulted in \$102,913,600 in single family mortgage proceeds. Morgan Keegan was the lead underwriter. The transaction resulted in maximum mortgage rates of 5.80% and 6.80%, a 40 basis point increase from the previous bond issue.
- 2) Even with the increase in rates, mortgage production remained strong during the quarter, with \$107 million in applications. This was a slight 2.8% decrease from the previous quarter (\$110 million) but a 46.3% increase from the third quarter of 2005 (\$79.1 million). The strong increase in the year to year production can be attributed to an increase in outside rates, as well as continued outreach efforts by THDA staff.
- 3) Due to the continued strong production, the THDA Board of Directors granted authorization for THDA to proceed with the pricing and sale of Bond Issue 2006-3. Pricing is scheduled for October 11 and 12, 2006 with a closing date October 31, 2006. The results of this transaction will be disclosed in the December 31, 2006 report.
- 4) Mortgage prepayments decreased during the quarter, but still resulted in a significant cash flow to be reinvested until time to call bonds. During the past quarter \$41.3 million was received by the agency in prepayments. This was a 5.2% increase from last quarter (\$44.3 million) and a 22.6% decrease from the third quarter of 2005 (\$54.3 million).
- 5) The Federal Reserve, after 17 consecutive increases in short term interest rates, did not raise rates this quarter. The overnight rate remained steady at 5.25%. Current speculation is mixed on what the Fed may do in the 4th quarter.

GENERAL FUND

DESCRIPTION

The General Fund was established under the 1974 Resolution and was funded from earnings above and beyond the debt cost of THDA Bond Issues that were done early in the existence of the agency (see discussion of float/equity funds under tab #5 in this report).

On December 31, 1998 mortgages from bond issue 1994-1 in the 1985 Resolution were transferred to the General Fund in the 1974 Resolution after the bonds from that issue were completely paid off. Prepayments and repayments from those mortgages are deposited into the General Fund.

The assets in the General Fund can be used for a variety of purposes. Some uses of the General Fund Assets have been:

- 1) Provide funding for special mortgage loan programs
- 2) Pre-fund mortgage loans pending the closing of a bond issue
- 3) Pay certain expenses connected to debt issuance and financial analysis
- 4) Grants – THDA's board approved an agency funded grant program in FY 2000.
- 5) Beginning in July, 2003 some funds were used to call higher coupon debt from other bond issues in the 1974 resolution.

LOAN FUNDS

DESCRIPTION

Proceeds from a new bond sale that are earmarked for funding mortgage loans are deposited into the Loan Fund. THDA invests these proceeds from the day of closing (the first day the funds are received) until the funds are needed for mortgage loans. Consideration must be given to the maintenance of liquidity so those funds are available as mortgage loans are funded.

A major challenge for THDA in managing the investments in the loan fund is minimizing “negative arbitrage”. This results because the rates that can be earned with a short-term investment instrument are usually less than the cost of the new long-term debt from which the proceeds derived.

Occasionally an amount is set aside from bond proceeds to cover this shortfall. This amount is called “capitalized interest”. Another method that is sometimes used to minimize or eliminate negative arbitrage is the purchasing of longer-term investments with higher rates in the loan fund. The intent would be to sell such investments when cash is needed either on the open market, or if advantageous, to other THDA funds that are expected to have a foreseeable need for such investments.

FLOAT/EQUITY FUNDS

DESCRIPTION

Float Funds are considered to be the portion of funds at any given time in the various funds and accounts that will be needed for the next scheduled semi-annual Debt Service payment or for bond call from mortgage prepayment proceeds. Any excess that accumulates in the accounts is considered *Equity Funds*. These funds represent the cumulative net gain in any fund or group of funds. For both the Float and Equity funds, THDA's investment objective is a balancing act: to maximize earnings while achieving sufficient liquidity at January 1 and July 1 to meet debt service and bond call requirements.

The following funds hold the Float/Equity funds:

Revenue Fund (1974 Resolution):

- Revenue Account
- Prepayment Account

Revenue Fund (1985 Resolution):

- Debt Service & Expense Account (DS&E)
- Non-Mortgage Receipts Account (NMR)

The chart below depicts where the General Bond Resolutions specify the different types of receipts be deposited and held:

	<u>1974 Resolution</u>		<u>1985 Resolution</u>	
	<u>Revenue Account</u>	<u>Pre-payment Account</u>	<u>DS&E Account</u>	<u>NMR Account</u>
Mortgage Loan Principal & Interest	X		X	
Prepayment & Foreclosure Receipts		X	X	
Interest on Non-Mortgage Investments	X			X

There is no compelling reason for the Resolutions to be structured differently at the present time. When the Agency began operations in 1974, funds were very limited and debt service was monitored monthly. Each month 1/12th of the annual Debt Service Requirement for the current year was required to be retained in the Revenue Fund and any excess was transferred to the General Fund. If less than the monthly requirement was collected in any month a transfer was made from the General Fund in the amount of that month's deficit. After THDA became financially stronger this requirement was removed in a revision of the 1974 Resolution.

DEBT SERVICE RESERVE FUNDS (DSRF)

DESCRIPTION

These funds have been set aside from prior bond proceeds, and represent the maximum annual debt service for the life of the bonds. The Debt Service Reserve requirement is by Resolution rather than bond issue. The calculation of the DSRF is performed by the Financial Advisor at the time of a new bond issue as well as annually and is based on amortized value rather than market value (pursuant to the terms of the General Bond Resolutions)

For most of THDA's history, the standard practice has been to invest the DSRF in investments with approximately the same maturity of the longest-term bond. This practice has been at the advice of Underwriters, Financial Advisors and Rating Agencies. However, beginning in 1993 when rates were at historic lows the Rating Agencies required substantially shorter maturity DSRF investment since a 30-year investment would lose substantial value if rates increased substantially. Therefore since that time investment decisions for these funds have been influenced by market conditions at the time of the investments.

A Debt Service Reserve Fund analysis was last done by CSG Advisors, Inc. in conjunction with bond issue 2003 series A (for the 1974 resolution) and bond issue 2005-2 (for the 1985 resolution). The result of this analysis was that THDA needed to increase the Debt Service Reserve Fund for the 1985 Resolution by \$845,532. As of these reports, the Debt Service Reserve Fund requirement was \$30,445,395 for the 1974 Resolution and \$117,414,471 for the 1985 Resolution.

Benchmarks:

NOTE: DSRF Investments represent investments funded throughout the history of THDA. As older bond issues under which DSRF investments were purchased were refunded, the DSRF investments were transferred to the refunding issues, and at times even to several issues. Because of this a benchmark comparison to other current rates would be meaningless.

ESCROW FUND

DESCRIPTION

THDA has established an escrow fund for the purpose of holding funds that do not belong to THDA but in which the agency has an interest.

The Escrow Fund in the 1974 Bond Resolution holds reserves and interest earnings for multi-family developments financed by THDA in the late 1970's and early 1980's. There are currently 32 multi-family mortgages outstanding and therefore 32 developments that have funds in the escrow account. THDA administers the federally funded Section 8 Project-based rental assistance program, and these 32 developments are part of that program.

Each month THDA receives mortgage payments from the properties. Out of these mortgage payments an amount is set aside and transferred to the escrow fund. Within the escrow fund amounts are allocated for the following purposes (distributions):

- Property taxes - paid on behalf of the property annually
- Insurance - paid on behalf of the property annually
- Replacement Reserves – paid as needed for capital improvements, etc. The property must request a distribution from these funds and THDA staff must review the request to ensure it is an appropriate use of the reserves.
- Earnings Distributions - The owners of these developments are allowed to withdraw a portion of their interest earnings at the end of each calendar year for earnings distributions for themselves and their partners.

THDA attempts to maximize earnings in this portfolio by investing most of the funds in longer-term instruments, while maintaining sufficient liquidity to meet the financial requirements of these distributions.

ARBITRAGE

DESCRIPTION

Arbitrage, in part is defined as “the simultaneous purchase and sale of the same or equivalent security in order to profit from price discrepancies”.

This relates to THDA as it is applied to the use of proceeds from tax-exempt bonds, specifically the use of such bond proceeds or earnings from such proceeds to purchase taxable non-mortgage investments. Any excess earnings over the cost of borrowing (bond rate) are arbitrage earnings and must be rebated to the Internal Revenue Service.

This is a net calculation and is computed annually. Attached is a spreadsheet showing the arbitrage liability by bond issue as of 6/30/06. Every five years on the anniversary date of each bond issue, for the life of the bond issue, cash settlement has to be made with the IRS. If earnings for a five-year period are less than what the investments would have earned at the bond rate, no payment is due the IRS. If the earnings are more than what would have been earned at the bond rate, cash payment of the excess must be paid to the IRS. THDA has contracted with Kutak Rock to make these complex calculations.

From an Investment management performance measurement standpoint, THDA knows that if there is a rebate liability for a bond issue, then the agency has maximized earnings for that particular issue. This is probably the best benchmark of all because as mentioned above any earnings in excess of bond cost cannot be retained by the agency.

- I. **SCOPE:** It is intended that this policy apply to the investment of all non-mortgage assets of the Tennessee Housing Development Agency (Agency), including those assets pledged to holders of the Agency's bonds.
- II. **AUTHORITY:** Section 5 of Chapter 900 of the Acts of 1988 (Tennessee Code Annotated, Section 13-23-112) requires the Agency to establish an investment policy for assets of the Agency. The State Treasurer is responsible for investing Agency assets in accordance with the duly adopted investment policy. The State Treasurer, in his sole discretion, may delegate to the Executive Director any portion of investment responsibilities deemed appropriate.
- III. **OBJECTIVES:**
- A. Safety of principal is the foremost objective, followed by liquidity and yield. Each investment transaction shall seek to first ensure that capital losses are avoided, whether they be from securities defaults or erosion of market value.
 - B. Investment decisions should not incur unreasonable investment risks in order to obtain current investment income.
 - C. The combined Agency portfolios shall remain sufficiently liquid to enable the Agency to meet all operating requirements.
 - D. Agency portfolios shall be designed to attain a market-average rate of return throughout budgetary and economic cycles, taking into account investment risk constraints, the cash flow characteristics of the Agency, and State law that restricts the placement of short-term funds.
 - E. Agency portfolios will be diversified to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.
 - F. While the Agency will not make investments for the purpose of trading or speculating as the dominant criterion, the Agency shall seek to enhance total portfolio return by means of active portfolio management. The prohibition of speculative investments precludes pursuit of gain or profit through unusual risk. However, trading in response to changes in market value or market direction is warranted under active portfolio management.
 - G. All participants in the investment process shall act responsibly as custodians of the public trust. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.
- IV. **PRUDENCE:** The standard of prudence to be used by all officials responsible for the investment of Agency assets shall be the "prudent man rule" which obligates a fiduciary to ensure that:
- ". . . investment shall be made with the exercise of that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation but for investment, considering the probable safety of their capital as well as the probably income to be derived."
- V. **ELIGIBLE INVESTMENTS:** Eligible investments for Agency assets shall include only investment instruments authorized for state funds pursuant to Tennessee Code Annotated, Section 9-4-602 and investments in the State Pooled Investment Fund established pursuant to Tennessee Code Annotated, Section 9-4-603. To the extent Agency assets are invested in certificates of deposit, such investment shall be accomplished through participation in the State Pooled Investment Fund. To the extent the Agency's eligible investments must be secured, "eligible collateral" acceptable as such security may include any items defined as eligible collateral in Tennessee Code Annotated Section 9-4-103 or repurchase agreements that meet all requirements of Section V.C. The Agency, at its option or as required under its bond

resolutions or other agreements with bondholders, may select or further restrict the types of eligible investments or the types of eligible collateral that may be used or may further restrict the levels of valuation of eligible collateral.

- A. Investment in U.S. government securities may constitute one hundred percent (100%) of the portfolio due to the absence of credit risk in this market.
- B. Securities shall be purchased through authorized broker/dealers for the security to be acquired. All transactions will be executed on a delivery versus payment basis. Due bills or notes are not acceptable as collateral in lieu of the purchased security.
- C. The following terms and conditions shall apply to investments in repurchase agreements:
 - 1. The seller and the Agency shall enter into a master repurchase agreement in a form approved by the State Treasurer, and the Attorney General and Reporter.
 - 2. Securities purchased under the repurchase agreement shall be limited to obligations of the United States Government or its agencies.
 - 3. At the time of purchase, the market value of the securities shall be equal to or greater than one hundred two percent (102%) of the cash investment.
 - 4. Securities shall be marked-to-market daily and shall be maintained at a value equal to or greater than the original cash investment amount, including accrued interest on such amount.
 - 5. The seller and the Agency may enter into an agreement with an independent custodian bank ("Custodian") in a form approved by the State Treasurer, and the Attorney General and Reporter pursuant to which the Custodian will provide transfer and safekeeping services for all securities and/or cash in connection with all repurchase transactions governed by the master repurchase agreement. For purposes of this provision, "independent custodian bank" means a bank which is not related to the seller nor the Agency through shared ownership or control.
 - 6. All securities purchased under a repurchase agreement shall be held in an account of the Agency under the control of either the Trustee or the State Treasurer, unless the seller and the Agency have entered into a custodial agreement pursuant to Paragraph 5 above. In such event, the securities shall be held in an account of the Agency with the Custodian.
 - 7. The seller may, at any time, substitute other securities or equal or greater market value for any purchased securities provided such other securities are obligations of the United States Government or its agencies.
 - 8. Repurchase agreements may be entered into only with sellers approved for use by Treasury Department portfolio managers, unless an exception is granted by the Bond Finance Committee.
 - 9. The maturity date of the securities purchased under a repurchase agreement shall exceed the term of the repurchase agreement. All securities purchased by the Agency shall be delivered simultaneously against payment to either the State Treasurer, or to an account of the Agency at the Trustee or the Custodian or, in the case of definitive securities, as provided in the master repurchase agreement.
 - 10. The transactions under each individual repurchase agreement shall be confirmed by the seller to the Agency. Each confirmation shall clearly describe the purchased securities (including the CUSIP number, if any), identify the Agency and the seller, and set forth

(a) the purchase date, (b) the purchase price, (c) the repurchase date, unless the transaction is to be terminable on demand, and (d) the pricing rate or repurchase price applicable to the transaction. Upon receipt, the confirmation shall be reviewed to insure that the terms contained therein correspond exactly to the terms negotiated by the parties. Any discrepancies appearing on the confirmation shall be conclusive grounds for terminating the repurchase agreement or renegotiating its terms, as may be appropriate. Upon a renegotiation of terms, a corrected confirmation shall be requested.

(Section V.C. amended by Board Resolution on July 20, 1995.)

- D. Special conditions for collateralized guaranteed investment contracts: The Agency may invest its assets in guaranteed investment contracts of longer than one (1) year with a select few of the highest quality foreign and domestic banks, domestic brokerage firms, or domestic insurance companies, as selected by the Agency upon the advice of its financial adviser. Such guaranteed investment contracts shall be secured by a perfected, first priority security interest in eligible collateral, as defined in Section V. The provider of the guaranteed investment contract and the Agency shall enter into a master guaranteed investment agreement, in a form approved by the State Treasurer, and/or other contracts or agreements as approved by the State Treasurer and the Attorney General and Reporter.

Eligible collateral shall have an initial market value of at least 102% of the principal amount of the cash investment. If the aggregate market value of the eligible collateral is less than 100% of the cash investment, then additional eligible collateral sufficient to bring the aggregate market value of all eligible collateral to at least 102% of the cash investment shall be required.

(Section V.D. added by Board Resolution on November 16, 1995.)

- VI. **MONITORING AND ADJUSTING THE PORTFOLIO:** On a routine basis, the contents of the portfolio, the available markets and the relative values of completing instruments will be monitored and the portfolio adjusted accordingly.
- VII. **INTERNAL CONTROLS:** The Agency shall establish a system of internal controls which shall be documented in writing. The controls shall be designed to prevent losses of funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the Agency. Controls deemed most important include: control of collusion, separation of duties, separating transaction authority from accounting and record keeping, custodial safekeeping, clear delegation of authority, written confirmation of telephone transactions, minimizing the number of authorized investment officials, documentation of transaction strategies, and code of ethics.

The Executive Director shall provide to the State Treasurer a copy of the report of internal controls submitted to the Comptroller of the Treasury in accordance with the Financial Integrity Act.

- VIII. **COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS:** Before investment of any Agency funds, a competitive "bid" process shall be conducted. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, bids will be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend (yield curve) analysis will be conducted to determine which maturities would be most advantageous. Bids will be requested for various options with regards to eligible investment instruments. The bid which provides the highest rate of return within the maturity required and within the parameters of these policies will be accepted. Records will be kept of the bids offered, the bids accepted and a brief explanation of the decision which was made regarding the investment. Exceptions to the competitive placement of Agency investments are permissible as market conditions warrant and will be documented in the Agency's files.
- IX. **BROKER/DEALER SELECTION AND REVIEW:** Repurchase agreements will only be transacted with primary government securities dealers that report to the New York Federal Reserve Bank and who complete the Agency's master repurchase agreement. The Agency shall periodically review the list of

primary dealers from the New York Federal Reserve Bank to determine which dealers have been added or deleted.

For purchase of securities on a delivery versus payment basis, any broker/dealer that gives priority to institutional trading over regular retail trading customers and exemplifies satisfactory performance in bidding and settlement of transactions will be authorized to bid on security acquisitions. An authorization letter (sample attached) will be sent to each authorized dealer. If a dealer is consistently unsuccessful in bidding and/or unsatisfactorily fulfills bids they have received, they will be removed from the approved list of dealers for six months. The list of approved broker/dealers shall be reviewed and updated periodically.

- X. **SAFEKEEPING:** All Agency investment securities shall be held by the Trustee or the State Treasurer. The party holding such securities shall issue a safekeeping receipt listing the specific instrument, rate, maturity and other pertinent information.

XI: **REPORTING**

Periodic: The Executive Director of the Tennessee Housing Development Agency shall submit a quarterly investment report to the Bond Finance Committee. This report will describe the portfolio activity during the period and compute the average yield and average maturity of the portfolio and list the acquisitions and dispositions during the quarter. The report shall summarize the investment strategies employed in the most recent period, describe the investment portfolios in terms of investment securities, maturities, yield and average maturity of the combined portfolios. A report will be presented of the pro rata debt service requirements by month for the next 12 months chronologized by debt service payment dates. Each report shall indicate any areas of policy concern and suggested or planned revision of investment strategies.

Annual: Within 90 days of the end of the fiscal year, the Executive Director of the Tennessee Housing Development Agency shall present a comprehensive annual report on the investment program and investment activity to the Bond Finance Committee. This report shall include twelve-month comparisons or return, shall suggest policies and improvements that might enhance the investment program, and include an investment plan for the ensuing fiscal year.

- XII. **DIVERSIFICATION:** The Tennessee Housing Development Agency should diversify investment portfolios in order to reduce the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. The following strategies and constraints shall apply:

- A. Portfolio maturities shall be staggered in a way that avoids undue concentrations of assets in a specific maturity sector. Maturities shall be selected which provide for stability of income and reasonable liquidity.
- B. It is the intent of this policy that sufficient investments be scheduled to mature to provide for the required liquidity for debt service and other expenditures per resolution requirements. A minimum of the pro rata cumulative debt service requirement at the end of each month for the then current bond year for each bond resolution must mature to meet the debt service payment dates. A schedule showing the cumulative debt service requirement by month shall be kept on file at the Agency.

In addition a minimum of five percent (5.00%) of the par value of total investments must mature within five years. No more than fifty percent (50.00%) of the par value of the combined portfolios can be invested in maturities of greater than fifteen (15) years without the approval of the Bond Finance Committee.

- XIII. **RISK TOLERANCE:** Investment risks can result from issuer defaults, market price changes, or various technical complications leading to temporary illiquidity. Portfolio diversification is employed as a way to control risk. Investment managers are expected to display prudence in the selection of securities, as a way to minimize default risk.

- XIV. **OPERATING PROCEDURES:** Written operating procedures to implement the provisions of the Agency investment policy shall be established. These procedures shall be subject to the review and approval of the State Treasurer.
- XV. **BOND RELATED FUNDS:** Funds held by the Agency under the 1974, 1981 and 1985 Resolutions shall be subject to the applicable Resolution requirement. Since the fund and account structure arises by Resolution, each type of receipt will be discussed rather than each fund and account.
- A. General Fund: This fund is the recipient of excess funds transferred from the 1974 Resolution Revenue Fund. These funds represent the amount remaining after setting aside the pro rata debt service requirement on each interest and principal payment date. Conversely, any deficit in the Revenue Fund needed to meet debt service is funded from the General Fund. Short term liquidity should be maintained in order to meet any monthly deficit that might occur in the Revenue Fund. Funds which are awaiting investment shall be invested in an interest-bearing account.
 - B. Undistributed Bond Proceeds Fund: These funds represent the proceeds from the sale of bonds, prior to being disbursed for the purpose of making mortgage loans, paying cost of issuance and capitalized interest. These funds shall be invested in eligible investments with maturities scheduled to assure that funds are available to fund loans. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - C. Servicing Agent Funds: These funds represent amounts remitted to servicing agents for payment of principal and interest on Agency mortgage loans. These funds are accumulated by the mortgage servicers and periodically remitted to the Trustee for deposit into the appropriate fund. Servicing agent funds, when remitted to the Trustee, shall be deposited in interest-bearing accounts with interest accruing to the Agency. These accounts shall be fully insured and/or collateralized to the benefit of the Agency. The Agency shall monitor such accounts and, when warranted, funds will be invested in securities with maturities dictated by the debt service requirements.
 - D. Debt Service Reserve Funds: These funds represent one (1) year of principal and interest payments on each Agency bond issue. Debt Service Reserve funds shall be invested in eligible investments with maturities as established by the Bond Finance Committee in consultation with the Agency's investment advisor/underwriter. All 1974 and 1981 Resolution Debt Service Reserve funds shall be invested by the Trustee. All 1985 Resolution Debt Service Reserve Funds shall be invested by the State Treasurer or the Trustee. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - E. Escrow Account Funds: These funds represent funds held in trust by the Agency for the purpose of paying taxes, insurance and other obligations for the mortgagors of multi-family projects financed under the 1974 Resolution. The funds are short to intermediate term in nature and are to be invested with a maturity schedule which ensures sufficient liquidity to honor the obligations of the Escrow Account Fund. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - F. Other Funds: These funds include all non-mortgage investment income (interest on non-mortgage investments, fees, penalties, etc.). These funds shall be deposited in accounts as provided in the Resolution fund structure.
- XVI. **OTHER AGENCY FUNDS:** Funds held by the Agency which are not being held under a specific bond resolution shall be subject to the following investment limitations and conditions.
- A. Assets Fund: These funds represent excess amounts which have been withdrawn from individual bond resolutions in accordance with the terms of the applicable resolution. In addition, at the direction of the Board, portions of the Assets Fund may be invested for the program purposes of the Agency. These funds provide for monthly interest income transfers to the Housing Program Fund.

- B. Housing Program Fund: These funds represents the operating reserves of the Agency which are used to fund Agency administrative costs, pay certain expenses of bond issues, make grants to eligible political subdivisions and not-for-profit corporations and support the growth of the Housing Program Reserve Fund.
- C. Housing Program Reserve Fund: This fund consists of excess funds transferred from the Assets Fund and the Housing Program Fund. Income from investments in this fund are transferred to the Housing Program Fund at least annually. In addition, at the direction of the Board, portions of the Housing Program Reserve Fund may be invested for the program purposes of the Agency.

XVII. ADOPTION

This investment policy was adopted by the Tennessee Housing Development Agency Board of Directors on September 14, 1993.

EXECUTIVE SUMMARY

THDA Finance Team:

Trent Ridley, CFO

Wayne Beard, Finance Director

Joe Brown, Controller

July 7, 2006

**Important Transactions during the past Quarter:*

- 1) Mortgage production increased significantly during the quarter, with \$110 million in applications. This was a 76.9% increase from the previous quarter (\$62.1 million) and a 38.9% increase from the second quarter of 2005 (\$79.1 million). The strong increase in production from the previous quarter and year to year production can be attributed to an increase in outside rates, as well as continued outreach efforts by THDA staff.
- 2) Due to the strong increase in production, the THDA Board of Directors granted authorization for the agency to proceed with the pricing and sale of Bond Issue 2006-2. Pricing is scheduled for July 12 and 13, 2006 with and closing is scheduled for July 27, 2006. The results of this transaction will be disclosed in the September 30, 2006 report.
- 3) Mortgage prepayments increased during the quarter, resulting in a significant cash flow to be reinvested until time to call bonds. During the past quarter \$44.3 million was received by the agency in prepayments. This was a 35.1% increase from last quarter (\$32.8 million) and a 15.4% decrease from the second quarter of 2005 (\$51.1 million).
- 4) The agency announced on May 15, 2006 a bond call in the amount of \$53.3 million on July 1, 2006. These amounts were due to the prepayments collected in the previous two quarters. This bond call was in addition to \$69.9 million of regular debt service (bond principle and interest) due on July 1.
- 5) The Federal Reserve continued to increase short term interest rates. During the past quarter rates were raised to 5.00% in May and again on June 29 to 5.25%. These increases have enabled the agency to earn more on short-term investments. Current speculation is that the Fed may raise short term rates another 25 basis points during the third quarter of 2006.

GENERAL FUND

DESCRIPTION

The General Fund was established under the 1974 Resolution and was funded from earnings above and beyond the debt cost of THDA Bond Issues that were done early in the existence of the agency (see discussion of float/equity funds under tab #5 in this report).

On December 31, 1998 mortgages from bond issue 1994-1 in the 1985 Resolution were transferred to the General Fund in the 1974 Resolution after the bonds from that issue were completely paid off. Prepayments and repayments from those mortgages are deposited into the General Fund.

The assets in the General Fund can be used for a variety of purposes. Some uses of the General Fund Assets have been:

- 1) Provide funding for special mortgage loan programs
- 2) Pre-fund mortgage loans pending the closing of a bond issue
- 3) Pay certain expenses connected to debt issuance and financial analysis
- 4) Grants – THDA's board approved an agency funded grant program in FY 2000.
- 5) Beginning in July, 2003 some funds were used to call higher coupon debt from other bond issues in the 1974 resolution.

LOAN FUNDS

DESCRIPTION

Proceeds from a new bond sale that are earmarked for funding mortgage loans are deposited into the Loan Fund. THDA invests these proceeds from the day of closing (the first day the funds are received) until the funds are needed for mortgage loans. Consideration must be given to the maintenance of liquidity so those funds are available as mortgage loans are funded.

A major challenge for THDA in managing the investments in the loan fund is minimizing “negative arbitrage”. This results because the rates that can be earned with a short-term investment instrument are usually less than the cost of the new long-term debt from which the proceeds derived.

Occasionally an amount is set aside from bond proceeds to cover this shortfall. This amount is called “capitalized interest”. Another method that is sometimes used to minimize or eliminate negative arbitrage is the purchasing of longer-term investments with higher rates in the loan fund. The intent would be to sell such investments when cash is needed either on the open market, or if advantageous, to other THDA funds that are expected to have a foreseeable need for such investments.

FLOAT/EQUITY FUNDS

DESCRIPTION

Float Funds are considered to be the portion of funds at any given time in the various funds and accounts that will be needed for the next scheduled semi-annual Debt Service payment or for bond call from mortgage prepayment proceeds. Any excess that accumulates in the accounts is considered *Equity Funds*. These funds represent the cumulative net gain in any fund or group of funds. For both the Float and Equity funds, THDA's investment objective is a balancing act: to maximize earnings while achieving sufficient liquidity at January 1 and July 1 to meet debt service and bond call requirements.

The following funds hold the Float/Equity funds:

Revenue Fund (1974 Resolution):

- Revenue Account
- Prepayment Account

Revenue Fund (1985 Resolution):

- Debt Service & Expense Account (DS&E)
- Non-Mortgage Receipts Account (NMR)

The chart below depicts where the General Bond Resolutions specify the different types of receipts be deposited and held:

	<u>1974 Resolution</u>		<u>1985 Resolution</u>	
	<u>Revenue Account</u>	<u>Pre-payment Account</u>	<u>DS&E Account</u>	<u>NMR Account</u>
Mortgage Loan Principal & Interest	X		X	
Prepayment & Foreclosure Receipts		X	X	
Interest on Non-Mortgage Investments	X			X

There is no compelling reason for the Resolutions to be structured differently at the present time. When the Agency began operations in 1974, funds were very limited and debt service was monitored monthly. Each month 1/12th of the annual Debt Service Requirement for the current year was required to be retained in the Revenue Fund and any excess was transferred to the General Fund. If less than the monthly requirement was collected in any month a transfer was made from the General Fund in the amount of that month's deficit. After THDA became financially stronger this requirement was removed in a revision of the 1974 Resolution.

Report Ver. 5.00

DEBT SERVICE RESERVE FUNDS (DSRF)

DESCRIPTION

These funds have been set aside from prior bond proceeds, and represent the maximum annual debt service for the life of the bonds. The Debt Service Reserve requirement is by Resolution rather than bond issue. The calculation of the DSRF is performed by the Financial Advisor at the time of a new bond issue as well as annually and is based on amortized value rather than market value (pursuant to the terms of the General Bond Resolutions)

For most of THDA's history, the standard practice has been to invest the DSRF in investments with approximately the same maturity of the longest-term bond. This practice has been at the advice of Underwriters, Financial Advisors and Rating Agencies. However, beginning in 1993 when rates were at historic lows the Rating Agencies required substantially shorter maturity DSRF investment since a 30-year investment would lose substantial value if rates increased substantially. Therefore since that time investment decisions for these funds have been influenced by market conditions at the time of the investments.

A Debt Service Reserve Fund analysis was last done by CSG Advisors, Inc. in conjunction with bond issue 2003 series A (for the 1974 resolution) and bond issue 2005-2 (for the 1985 resolution). The result of this analysis was that THDA needed to increase the Debt Service Reserve Fund for the 1985 Resolution by \$845,532. As of these reports, the Debt Service Reserve Fund requirement was \$30,445,395 for the 1974 Resolution and \$117,414,471 for the 1985 Resolution.

	Quarter ending 6/30/2006	Current Fiscal Year	Last 12 Months	Last 24 Months
1974 Resolution	6.197%	6.362%	6.362%	6.424%
1985 Resolution	8.089%	8.111%	8.111%	8.228%

Benchmarks:

NOTE: DSRF Investments represent investments funded throughout the history of THDA. As older bond issues under which DSRF investments were purchased were refunded, the DSRF investments were transferred to the refunding issues, and at times even to several issues. Because of this a benchmark comparison to other current rates would be meaningless.

ESCROW FUND

DESCRIPTION

THDA has established an escrow fund for the purpose of holding funds that do not belong to THDA but in which the agency has an interest.

The Escrow Fund in the 1974 Bond Resolution holds reserves and interest earnings for multi-family developments financed by THDA in the late 1970's and early 1980's. There are currently 32 multi-family mortgages outstanding and therefore 32 developments that have funds in the escrow account. THDA administers the federally funded Section 8 Project-based rental assistance program, and these 32 developments are part of that program.

Each month THDA receives mortgage payments from the properties. Out of these mortgage payments an amount is set aside and transferred to the escrow fund. Within the escrow fund amounts are allocated for the following purposes (distributions):

- Property taxes - paid on behalf of the property annually
- Insurance - paid on behalf of the property annually
- Replacement Reserves – paid as needed for capital improvements, etc. The property must request a distribution from these funds and THDA staff must review the request to ensure it is an appropriate use of the reserves.
- Earnings Distributions - The owners of these developments are allowed to withdraw a portion of their interest earnings at the end of each calendar year for earnings distributions for themselves and their partners.

THDA attempts to maximize earnings in this portfolio by investing most of the funds in longer-term instruments, while maintaining sufficient liquidity to meet the financial requirements of these distributions.

ARBITRAGE

DESCRIPTION

Arbitrage, in part is defined as “the simultaneous purchase and sale of the same or equivalent security in order to profit from price discrepancies”.

This relates to THDA as it is applied to the use of proceeds from tax-exempt bonds, specifically the use of such bond proceeds or earnings from such proceeds to purchase taxable non-mortgage investments. Any excess earnings over the cost of borrowing (bond rate) are arbitrage earnings and must be rebated to the Internal Revenue Service.

This is a net calculation and is computed annually. Attached is a spreadsheet showing the arbitrage liability by bond issue as of 6/30/06. Every five years on the anniversary date of each bond issue, for the life of the bond issue, cash settlement has to be made with the IRS. If earnings for a five-year period are less than what the investments would have earned at the bond rate, no payment is due the IRS. If the earnings are more than what would have been earned at the bond rate, cash payment of the excess must be paid to the IRS. THDA has contracted with Kutak Rock to make these complex calculations.

From an Investment management performance measurement standpoint, THDA knows that if there is a rebate liability for a bond issue, then the agency has maximized earnings for that particular issue. This is probably the best benchmark of all because as mentioned above any earnings in excess of bond cost cannot be retained by the agency.

- I. **SCOPE:** It is intended that this policy apply to the investment of all non-mortgage assets of the Tennessee Housing Development Agency (Agency), including those assets pledged to holders of the Agency's bonds.
- II. **AUTHORITY:** Section 5 of Chapter 900 of the Acts of 1988 (Tennessee Code Annotated, Section 13-23-112) requires the Agency to establish an investment policy for assets of the Agency. The State Treasurer is responsible for investing Agency assets in accordance with the duly adopted investment policy. The State Treasurer, in his sole discretion, may delegate to the Executive Director any portion of investment responsibilities deemed appropriate.
- III. **OBJECTIVES:**
- A. Safety of principal is the foremost objective, followed by liquidity and yield. Each investment transaction shall seek to first ensure that capital losses are avoided, whether they be from securities defaults or erosion of market value.
 - B. Investment decisions should not incur unreasonable investment risks in order to obtain current investment income.
 - C. The combined Agency portfolios shall remain sufficiently liquid to enable the Agency to meet all operating requirements.
 - D. Agency portfolios shall be designed to attain a market-average rate of return throughout budgetary and economic cycles, taking into account investment risk constraints, the cash flow characteristics of the Agency, and State law that restricts the placement of short-term funds.
 - E. Agency portfolios will be diversified to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.
 - F. While the Agency will not make investments for the purpose of trading or speculating as the dominant criterion, the Agency shall seek to enhance total portfolio return by means of active portfolio management. The prohibition of speculative investments precludes pursuit of gain or profit through unusual risk. However, trading in response to changes in market value or market direction is warranted under active portfolio management.
 - G. All participants in the investment process shall act responsibly as custodians of the public trust. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.
- IV. **PRUDENCE:** The standard of prudence to be used by all officials responsible for the investment of Agency assets shall be the "prudent man rule" which obligates a fiduciary to ensure that:
- ". . . investment shall be made with the exercise of that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation but for investment, considering the probable safety of their capital as well as the probably income to be derived."
- V. **ELIGIBLE INVESTMENTS:** Eligible investments for Agency assets shall include only investment instruments authorized for state funds pursuant to Tennessee Code Annotated, Section 9-4-602 and investments in the State Pooled Investment Fund established pursuant to Tennessee Code Annotated, Section 9-4-603. To the extent Agency assets are invested in certificates of deposit, such investment shall be accomplished through participation in the State Pooled Investment Fund. To the extent the Agency's eligible investments must be secured, "eligible collateral" acceptable as such security may include any items defined as eligible collateral in Tennessee Code Annotated Section 9-4-103 or repurchase agreements that meet all requirements of Section V.C. The Agency, at its option or as required under its bond

resolutions or other agreements with bondholders, may select or further restrict the types of eligible investments or the types of eligible collateral that may be used or may further restrict the levels of valuation of eligible collateral.

- A. Investment in U.S. government securities may constitute one hundred percent (100%) of the portfolio due to the absence of credit risk in this market.
- B. Securities shall be purchased through authorized broker/dealers for the security to be acquired. All transactions will be executed on a delivery versus payment basis. Due bills or notes are not acceptable as collateral in lieu of the purchased security.
- C. The following terms and conditions shall apply to investments in repurchase agreements:
 - 1. The seller and the Agency shall enter into a master repurchase agreement in a form approved by the State Treasurer, and the Attorney General and Reporter.
 - 2. Securities purchased under the repurchase agreement shall be limited to obligations of the United States Government or its agencies.
 - 3. At the time of purchase, the market value of the securities shall be equal to or greater than one hundred two percent (102%) of the cash investment.
 - 4. Securities shall be marked-to-market daily and shall be maintained at a value equal to or greater than the original cash investment amount, including accrued interest on such amount.
 - 5. The seller and the Agency may enter into an agreement with an independent custodian bank ("Custodian") in a form approved by the State Treasurer, and the Attorney General and Reporter pursuant to which the Custodian will provide transfer and safekeeping services for all securities and/or cash in connection with all repurchase transactions governed by the master repurchase agreement. For purposes of this provision, "independent custodian bank" means a bank which is not related to the seller nor the Agency through shared ownership or control.
 - 6. All securities purchased under a repurchase agreement shall be held in an account of the Agency under the control of either the Trustee or the State Treasurer, unless the seller and the Agency have entered into a custodial agreement pursuant to Paragraph 5 above. In such event, the securities shall be held in an account of the Agency with the Custodian.
 - 7. The seller may, at any time, substitute other securities or equal or greater market value for any purchased securities provided such other securities are obligations of the United States Government or its agencies.
 - 8. Repurchase agreements may be entered into only with sellers approved for use by Treasury Department portfolio managers, unless an exception is granted by the Bond Finance Committee.
 - 9. The maturity date of the securities purchased under a repurchase agreement shall exceed the term of the repurchase agreement. All securities purchased by the Agency shall be delivered simultaneously against payment to either the State Treasurer, or to an account of the Agency at the Trustee or the Custodian or, in the case of definitive securities, as provided in the master repurchase agreement.
 - 10. The transactions under each individual repurchase agreement shall be confirmed by the seller to the Agency. Each confirmation shall clearly describe the purchased securities (including the CUSIP number, if any), identify the Agency and the seller, and set forth

(a) the purchase date, (b) the purchase price, (c) the repurchase date, unless the transaction is to be terminable on demand, and (d) the pricing rate or repurchase price applicable to the transaction. Upon receipt, the confirmation shall be reviewed to insure that the terms contained therein correspond exactly to the terms negotiated by the parties. Any discrepancies appearing on the confirmation shall be conclusive grounds for terminating the repurchase agreement or renegotiating its terms, as may be appropriate. Upon a renegotiation of terms, a corrected confirmation shall be requested.

(Section V.C. amended by Board Resolution on July 20, 1995.)

- D. Special conditions for collateralized guaranteed investment contracts: The Agency may invest its assets in guaranteed investment contracts of longer than one (1) year with a select few of the highest quality foreign and domestic banks, domestic brokerage firms, or domestic insurance companies, as selected by the Agency upon the advice of its financial adviser. Such guaranteed investment contracts shall be secured by a perfected, first priority security interest in eligible collateral, as defined in Section V. The provider of the guaranteed investment contract and the Agency shall enter into a master guaranteed investment agreement, in a form approved by the State Treasurer, and/or other contracts or agreements as approved by the State Treasurer and the Attorney General and Reporter.

Eligible collateral shall have an initial market value of at least 102% of the principal amount of the cash investment. If the aggregate market value of the eligible collateral is less than 100% of the cash investment, then additional eligible collateral sufficient to bring the aggregate market value of all eligible collateral to at least 102% of the cash investment shall be required.

(Section V.D. added by Board Resolution on November 16, 1995.)

- VI. **MONITORING AND ADJUSTING THE PORTFOLIO:** On a routine basis, the contents of the portfolio, the available markets and the relative values of completing instruments will be monitored and the portfolio adjusted accordingly.
- VII. **INTERNAL CONTROLS:** The Agency shall establish a system of internal controls which shall be documented in writing. The controls shall be designed to prevent losses of funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the Agency. Controls deemed most important include: control of collusion, separation of duties, separating transaction authority from accounting and record keeping, custodial safekeeping, clear delegation of authority, written confirmation of telephone transactions, minimizing the number of authorized investment officials, documentation of transaction strategies, and code of ethics.

The Executive Director shall provide to the State Treasurer a copy of the report of internal controls submitted to the Comptroller of the Treasury in accordance with the Financial Integrity Act.

- VIII. **COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS:** Before investment of any Agency funds, a competitive "bid" process shall be conducted. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, bids will be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend (yield curve) analysis will be conducted to determine which maturities would be most advantageous. Bids will be requested for various options with regards to eligible investment instruments. The bid which provides the highest rate of return within the maturity required and within the parameters of these policies will be accepted. Records will be kept of the bids offered, the bids accepted and a brief explanation of the decision which was made regarding the investment. Exceptions to the competitive placement of Agency investments are permissible as market conditions warrant and will be documented in the Agency's files.
- IX. **BROKER/DEALER SELECTION AND REVIEW:** Repurchase agreements will only be transacted with primary government securities dealers that report to the New York Federal Reserve Bank and who complete the Agency's master repurchase agreement. The Agency shall periodically review the list of

primary dealers from the New York Federal Reserve Bank to determine which dealers have been added or deleted.

For purchase of securities on a delivery versus payment basis, any broker/dealer that gives priority to institutional trading over regular retail trading customers and exemplifies satisfactory performance in bidding and settlement of transactions will be authorized to bid on security acquisitions. An authorization letter (sample attached) will be sent to each authorized dealer. If a dealer is consistently unsuccessful in bidding and/or unsatisfactorily fulfills bids they have received, they will be removed from the approved list of dealers for six months. The list of approved broker/dealers shall be reviewed and updated periodically.

- X. **SAFEKEEPING:** All Agency investment securities shall be held by the Trustee or the State Treasurer. The party holding such securities shall issue a safekeeping receipt listing the specific instrument, rate, maturity and other pertinent information.

XI: **REPORTING**

Periodic: The Executive Director of the Tennessee Housing Development Agency shall submit a quarterly investment report to the Bond Finance Committee. This report will describe the portfolio activity during the period and compute the average yield and average maturity of the portfolio and list the acquisitions and dispositions during the quarter. The report shall summarize the investment strategies employed in the most recent period, describe the investment portfolios in terms of investment securities, maturities, yield and average maturity of the combined portfolios. A report will be presented of the pro rata debt service requirements by month for the next 12 months chronologized by debt service payment dates. Each report shall indicate any areas of policy concern and suggested or planned revision of investment strategies.

Annual: Within 90 days of the end of the fiscal year, the Executive Director of the Tennessee Housing Development Agency shall present a comprehensive annual report on the investment program and investment activity to the Bond Finance Committee. This report shall include twelve-month comparisons or return, shall suggest policies and improvements that might enhance the investment program, and include an investment plan for the ensuing fiscal year.

- XII. **DIVERSIFICATION:** The Tennessee Housing Development Agency should diversify investment portfolios in order to reduce the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. The following strategies and constraints shall apply:

- A. Portfolio maturities shall be staggered in a way that avoids undue concentrations of assets in a specific maturity sector. Maturities shall be selected which provide for stability of income and reasonable liquidity.
- B. It is the intent of this policy that sufficient investments be scheduled to mature to provide for the required liquidity for debt service and other expenditures per resolution requirements. A minimum of the pro rata cumulative debt service requirement at the end of each month for the then current bond year for each bond resolution must mature to meet the debt service payment dates. A schedule showing the cumulative debt service requirement by month shall be kept on file at the Agency.

In addition a minimum of five percent (5.00%) of the par value of total investments must mature within five years. No more than fifty percent (50.00%) of the par value of the combined portfolios can be invested in maturities of greater than fifteen (15) years without the approval of the Bond Finance Committee.

- XIII. **RISK TOLERANCE:** Investment risks can result from issuer defaults, market price changes, or various technical complications leading to temporary illiquidity. Portfolio diversification is employed as a way to control risk. Investment managers are expected to display prudence in the selection of securities, as a way to minimize default risk.

- XIV. **OPERATING PROCEDURES:** Written operating procedures to implement the provisions of the Agency investment policy shall be established. These procedures shall be subject to the review and approval of the State Treasurer.
- XV. **BOND RELATED FUNDS:** Funds held by the Agency under the 1974, 1981 and 1985 Resolutions shall be subject to the applicable Resolution requirement. Since the fund and account structure arises by Resolution, each type of receipt will be discussed rather than each fund and account.
- A. General Fund: This fund is the recipient of excess funds transferred from the 1974 Resolution Revenue Fund. These funds represent the amount remaining after setting aside the pro rata debt service requirement on each interest and principal payment date. Conversely, any deficit in the Revenue Fund needed to meet debt service is funded from the General Fund. Short term liquidity should be maintained in order to meet any monthly deficit that might occur in the Revenue Fund. Funds which are awaiting investment shall be invested in an interest-bearing account.
 - B. Undistributed Bond Proceeds Fund: These funds represent the proceeds from the sale of bonds, prior to being disbursed for the purpose of making mortgage loans, paying cost of issuance and capitalized interest. These funds shall be invested in eligible investments with maturities scheduled to assure that funds are available to fund loans. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - C. Servicing Agent Funds: These funds represent amounts remitted to servicing agents for payment of principal and interest on Agency mortgage loans. These funds are accumulated by the mortgage servicers and periodically remitted to the Trustee for deposit into the appropriate fund. Servicing agent funds, when remitted to the Trustee, shall be deposited in interest-bearing accounts with interest accruing to the Agency. These accounts shall be fully insured and/or collateralized to the benefit of the Agency. The Agency shall monitor such accounts and, when warranted, funds will be invested in securities with maturities dictated by the debt service requirements.
 - D. Debt Service Reserve Funds: These funds represent one (1) year of principal and interest payments on each Agency bond issue. Debt Service Reserve funds shall be invested in eligible investments with maturities as established by the Bond Finance Committee in consultation with the Agency's investment advisor/underwriter. All 1974 and 1981 Resolution Debt Service Reserve funds shall be invested by the Trustee. All 1985 Resolution Debt Service Reserve Funds shall be invested by the State Treasurer or the Trustee. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - E. Escrow Account Funds: These funds represent funds held in trust by the Agency for the purpose of paying taxes, insurance and other obligations for the mortgagors of multi-family projects financed under the 1974 Resolution. The funds are short to intermediate term in nature and are to be invested with a maturity schedule which ensures sufficient liquidity to honor the obligations of the Escrow Account Fund. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - F. Other Funds: These funds include all non-mortgage investment income (interest on non-mortgage investments, fees, penalties, etc.). These funds shall be deposited in accounts as provided in the Resolution fund structure.
- XVI. **OTHER AGENCY FUNDS:** Funds held by the Agency which are not being held under a specific bond resolution shall be subject to the following investment limitations and conditions.
- A. Assets Fund: These funds represent excess amounts which have been withdrawn from individual bond resolutions in accordance with the terms of the applicable resolution. In addition, at the direction of the Board, portions of the Assets Fund may be invested for the program purposes of the Agency. These funds provide for monthly interest income transfers to the Housing Program Fund.

- B. Housing Program Fund: These funds represents the operating reserves of the Agency which are used to fund Agency administrative costs, pay certain expenses of bond issues, make grants to eligible political subdivisions and not-for-profit corporations and support the growth of the Housing Program Reserve Fund.

- C. Housing Program Reserve Fund: This fund consists of excess funds transferred from the Assets Fund and the Housing Program Fund. Income from investments in this fund are transferred to the Housing Program Fund at least annually. In addition, at the direction of the Board, portions of the Housing Program Reserve Fund may be invested for the program purposes of the Agency.

XVII. ADOPTION

This investment policy was adopted by the Tennessee Housing Development Agency Board of Directors on September 14, 1993.

EXECUTIVE SUMMARY

THDA Finance Team:

Alice O. Williams, Chief Financial Officer

Wayne Beard, Finance Director

Joe Brown, Controller

**Important Transactions during the past Quarter:*

- 1) Bond Issue 2005-2 was closed on November 17, 2005. This issue provided the agency with \$101,606,800 in single family mortgage proceeds. UBS was the lead underwriter. The transaction produced maximum mortgage rates of 5.45% and 6.45%. As a result, THDA increased mortgage rates from 4.99% and 5.99% to 5.30% and 6.30%.
- 2) Mortgage production slowed slightly during the quarter, with \$64.2 million in applications. This was a 12.2% decrease from the previous quarter (\$73.1 million) but a 61.3% increase from the third quarter of 2004 (\$39.8 million). The slight drop in production from the previous quarter can be attributed to normal seasonal trends. The strong increase in year to year production can be attributed to an increase in outside rates, as well as continued outreach efforts by THDA staff.
- 3) Mortgage prepayments slowed, but still resulted in a significant cash flow to be reinvested until time to call bonds. During the past quarter \$40.9 million was received by the agency in prepayments. This was a 24.5% decrease from last quarter (\$54.2 million) and an 8.50% decrease from the fourth quarter of 2004 (\$44.7 million).
- 4) The agency announced on November 15, 2005 a bond call of \$40.6 million for January 1, 2006. These amounts were due to the prepayments collected in the previous quarter (referenced above). This bond call was in addition to \$54.2 million of regular debt service (bond principle and interest) due on January 1. Currently the agency strategy is to call bonds on a quarterly basis, but due to rising short term reinvestment rates (see #5) we are reviewing this strategy.
- 5) The Federal Reserve continued to increase short term interest rates. During the past quarter rates were raised to 4.0% in November and again on December 13 to 4.25%. These increases have enabled the agency to earn more on short-term investments. Current speculation is that the Fed could raise short term rates by as much as fifty basis points during the first quarter of 2006.

GENERAL FUND

DESCRIPTION

The General Fund was established under the 1974 Resolution and was funded from earnings above and beyond the debt cost of THDA Bond Issues that were done early in the existence of the agency (see discussion of float/equity funds under tab #5 in this report).

On December 31, 1998 mortgages from bond issue 1994-1 in the 1985 Resolution were transferred to the General Fund in the 1974 Resolution after the bonds from that issue were completely paid off. Prepayments and repayments from those mortgages are deposited into the General Fund.

The assets in the General Fund can be used for a variety of purposes. Some uses of the General Fund Assets have been:

- 1) Provide funding for special mortgage loan programs
- 2) Pre-fund mortgage loans pending the closing of a bond issue
- 3) Pay certain expenses connected to debt issuance and financial analysis
- 4) Grants – THDA's board approved an agency funded grant program in FY 2000.
- 5) Beginning in July, 2003 some funds were used to call higher coupon debt from other bond issues in the 1974 resolution.

LOAN FUNDS

DESCRIPTION

Proceeds from a new bond sale that are earmarked for funding mortgage loans are deposited into the Loan Fund. THDA invests these proceeds from the day of closing (the first day the funds are received) until the funds are needed for mortgage loans. Consideration must be given to the maintenance of liquidity so those funds are available as mortgage loans are funded.

A major challenge for THDA in managing the investments in the loan fund is minimizing “negative arbitrage”. This results because the rates that can be earned with a short-term investment instrument are usually less than the cost of the new long-term debt from which the proceeds derived.

Occasionally an amount is set aside from bond proceeds to cover this shortfall. This amount is called “capitalized interest”. Another method that is sometimes used to minimize or eliminate negative arbitrage is the purchasing of longer-term investments with higher rates in the loan fund. The intent would be to sell such investments when cash is needed either on the open market, or if advantageous, to other THDA funds that are expected to have a foreseeable need for such investments.

FLOAT/EQUITY FUNDS

DESCRIPTION

Float Funds are considered to be the portion of funds at any given time in the various funds and accounts that will be needed for the next scheduled semi-annual Debt Service payment or for bond call from mortgage prepayment proceeds. Any excess that accumulates in the accounts is considered *Equity Funds*. These funds represent the cumulative net gain in any fund or group of funds. For both the Float and Equity funds, THDA's investment objective is a balancing act: to maximize earnings while achieving sufficient liquidity at January 1 and July 1 to meet debt service and bond call requirements.

The following funds hold the Float/Equity funds:

Revenue Fund (1974 Resolution):

- Revenue Account
- Prepayment Account

Revenue Fund (1985 Resolution):

- Debt Service & Expense Account (DS&E)
- Non-Mortgage Receipts Account (NMR)

The chart below depicts where the General Bond Resolutions specify the different types of receipts be deposited and held:

	<u>1974 Resolution</u>		<u>1985 Resolution</u>	
	<u>Revenue Account</u>	<u>Pre-payment Account</u>	<u>DS&E Account</u>	<u>NMR Account</u>
Mortgage Loan Principal & Interest	X		X	
Prepayment & Foreclosure Receipts		X	X	
Interest on Non-Mortgage Investments	X			X

There is no compelling reason for the Resolutions to be structured differently at the present time. When the Agency began operations in 1974, funds were very limited and debt service was monitored monthly. Each month 1/12th of the annual Debt Service Requirement for the current year was required to be retained in the Revenue Fund and any excess was transferred to the General Fund. If less than the monthly requirement was collected in any month a transfer was made from the General Fund in the amount of that month's deficit. After THDA became financially stronger this requirement was removed in a revision of the 1974 Resolution.

DEBT SERVICE RESERVE FUNDS (DSRF)

DESCRIPTION

These funds have been set aside from prior bond proceeds, and represent the maximum annual debt service for the life of the bonds. The Debt Service Reserve requirement is by Resolution rather than bond issue. The calculation of the DSRF is performed by the Financial Advisor at the time of a new bond issue as well as annually and is based on amortized value rather than market value (pursuant to the terms of the General Bond Resolutions)

For most of THDA's history, the standard practice has been to invest the DSRF in investments with approximately the same maturity of the longest-term bond. This practice has been at the advice of Underwriters, Financial Advisors and Rating Agencies. However, beginning in 1993 when rates were at historic lows the Rating Agencies required substantially shorter maturity DSRF investment since a 30-year investment would lose substantial value if rates increased substantially. Therefore since that time investment decisions for these funds have been influenced by market conditions at the time of the investments.

A Debt Service Reserve Fund analysis was last done by CSG Advisors, Inc. in conjunction with bond issue 2003 series A (for the 1974 resolution) and bond issue 2005-2 (for the 1985 resolution). The result of this analysis was that THDA needed to increase the Debt Service Reserve Fund for the 1985 Resolution by \$845,532. As of these reports, the Debt Service Reserve Fund requirement was \$30,445,395 for the 1974 Resolution and \$117,414,471 for the 1985 Resolution.

Benchmarks:

NOTE: DSRF Investments represent investments funded throughout the history of THDA. As older bond issues under which DSRF investments were purchased were refunded, the DSRF investments were transferred to the refunding issues, and at times even to several issues. Because of this a benchmark comparison to other current rates would be meaningless.

ESCROW FUND

DESCRIPTION

THDA has established an escrow fund for the purpose of holding funds that do not belong to THDA but in which the agency has an interest.

The Escrow Fund in the 1974 Bond Resolution holds reserves and interest earnings for multi-family developments financed by THDA in the late 1970's and early 1980's. There are currently 32 multi-family mortgages outstanding and therefore 32 developments that have funds in the escrow account. THDA administers the federally funded Section 8 Project-based rental assistance program, and these 32 developments are part of that program.

Each month THDA receives mortgage payments from the properties. Out of these mortgage payments an amount is set aside and transferred to the escrow fund. Within the escrow fund amounts are allocated for the following purposes (distributions):

- Property taxes - paid on behalf of the property annually
- Insurance - paid on behalf of the property annually
- Replacement Reserves – paid as needed for capital improvements, etc. The property must request a distribution from these funds and THDA staff must review the request to ensure it is an appropriate use of the reserves.
- Earnings Distributions - The owners of these developments are allowed to withdraw a portion of their interest earnings at the end of each calendar year for earnings distributions for themselves and their partners.

THDA attempts to maximize earnings in this portfolio by investing most of the funds in longer-term instruments, while maintaining sufficient liquidity to meet the financial requirements of these distributions.

ARBITRAGE

DESCRIPTION

Arbitrage, in part is defined as “the simultaneous purchase and sale of the same or equivalent security in order to profit from price discrepancies”.

This relates to THDA as it is applied to the use of proceeds from tax-exempt bonds, specifically the use of such bond proceeds or earnings from such proceeds to purchase taxable non-mortgage investments. Any excess earnings over the cost of borrowing (bond rate) are arbitrage earnings and must be rebated to the Internal Revenue Service.

This is a net calculation and is computed annually. Attached is a spreadsheet showing the arbitrage liability by bond issue as of 6/30/05. Every five years on the anniversary date of each bond issue, for the life of the bond issue, cash settlement has to be made with the IRS. If earnings for a five-year period are less than what the investments would have earned at the bond rate, no payment is due the IRS. If the earnings are more than what would have been earned at the bond rate, cash payment of the excess must be paid to the IRS. THDA has contracted with Kutak Rock to make these complex calculations.

From an Investment management performance measurement standpoint, THDA knows that if there is a rebate liability for a bond issue, then the agency has maximized earnings for that particular issue. This is probably the best benchmark of all because as mentioned above any earnings in excess of bond cost cannot be retained by the agency.

- I. **SCOPE:** It is intended that this policy apply to the investment of all non-mortgage assets of the Tennessee Housing Development Agency (Agency), including those assets pledged to holders of the Agency's bonds.
- II. **AUTHORITY:** Section 5 of Chapter 900 of the Acts of 1988 (Tennessee Code Annotated, Section 13-23-112) requires the Agency to establish an investment policy for assets of the Agency. The State Treasurer is responsible for investing Agency assets in accordance with the duly adopted investment policy. The State Treasurer, in his sole discretion, may delegate to the Executive Director any portion of investment responsibilities deemed appropriate.
- III. **OBJECTIVES:**
- A. Safety of principal is the foremost objective, followed by liquidity and yield. Each investment transaction shall seek to first ensure that capital losses are avoided, whether they be from securities defaults or erosion of market value.
 - B. Investment decisions should not incur unreasonable investment risks in order to obtain current investment income.
 - C. The combined Agency portfolios shall remain sufficiently liquid to enable the Agency to meet all operating requirements.
 - D. Agency portfolios shall be designed to attain a market-average rate of return throughout budgetary and economic cycles, taking into account investment risk constraints, the cash flow characteristics of the Agency, and State law that restricts the placement of short-term funds.
 - E. Agency portfolios will be diversified to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.
 - F. While the Agency will not make investments for the purpose of trading or speculating as the dominant criterion, the Agency shall seek to enhance total portfolio return by means of active portfolio management. The prohibition of speculative investments precludes pursuit of gain or profit through unusual risk. However, trading in response to changes in market value or market direction is warranted under active portfolio management.
 - G. All participants in the investment process shall act responsibly as custodians of the public trust. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.
- IV. **PRUDENCE:** The standard of prudence to be used by all officials responsible for the investment of Agency assets shall be the "prudent man rule" which obligates a fiduciary to ensure that:
- ". . . investment shall be made with the exercise of that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation but for investment, considering the probable safety of their capital as well as the probably income to be derived."
- V. **ELIGIBLE INVESTMENTS:** Eligible investments for Agency assets shall include only investment instruments authorized for state funds pursuant to Tennessee Code Annotated, Section 9-4-602 and investments in the State Pooled Investment Fund established pursuant to Tennessee Code Annotated, Section 9-4-603. To the extent Agency assets are invested in certificates of deposit, such investment shall be accomplished through participation in the State Pooled Investment Fund. To the extent the Agency's eligible investments must be secured, "eligible collateral" acceptable as such security may include any items defined as eligible collateral in Tennessee Code Annotated Section 9-4-103 or repurchase agreements that meet all requirements of Section V.C. The Agency, at its option or as required under its bond

resolutions or other agreements with bondholders, may select or further restrict the types of eligible investments or the types of eligible collateral that may be used or may further restrict the levels of valuation of eligible collateral.

- A. Investment in U.S. government securities may constitute one hundred percent (100%) of the portfolio due to the absence of credit risk in this market.
- B. Securities shall be purchased through authorized broker/dealers for the security to be acquired. All transactions will be executed on a delivery versus payment basis. Due bills or notes are not acceptable as collateral in lieu of the purchased security.
- C. The following terms and conditions shall apply to investments in repurchase agreements:
 - 1. The seller and the Agency shall enter into a master repurchase agreement in a form approved by the State Treasurer, and the Attorney General and Reporter.
 - 2. Securities purchased under the repurchase agreement shall be limited to obligations of the United States Government or its agencies.
 - 3. At the time of purchase, the market value of the securities shall be equal to or greater than one hundred two percent (102%) of the cash investment.
 - 4. Securities shall be marked-to-market daily and shall be maintained at a value equal to or greater than the original cash investment amount, including accrued interest on such amount.
 - 5. The seller and the Agency may enter into an agreement with an independent custodian bank ("Custodian") in a form approved by the State Treasurer, and the Attorney General and Reporter pursuant to which the Custodian will provide transfer and safekeeping services for all securities and/or cash in connection with all repurchase transactions governed by the master repurchase agreement. For purposes of this provision, "independent custodian bank" means a bank which is not related to the seller nor the Agency through shared ownership or control.
 - 6. All securities purchased under a repurchase agreement shall be held in an account of the Agency under the control of either the Trustee or the State Treasurer, unless the seller and the Agency have entered into a custodial agreement pursuant to Paragraph 5 above. In such event, the securities shall be held in an account of the Agency with the Custodian.
 - 7. The seller may, at any time, substitute other securities or equal or greater market value for any purchased securities provided such other securities are obligations of the United States Government or its agencies.
 - 8. Repurchase agreements may be entered into only with sellers approved for use by Treasury Department portfolio managers, unless an exception is granted by the Bond Finance Committee.
 - 9. The maturity date of the securities purchased under a repurchase agreement shall exceed the term of the repurchase agreement. All securities purchased by the Agency shall be delivered simultaneously against payment to either the State Treasurer, or to an account of the Agency at the Trustee or the Custodian or, in the case of definitive securities, as provided in the master repurchase agreement.
 - 10. The transactions under each individual repurchase agreement shall be confirmed by the seller to the Agency. Each confirmation shall clearly describe the purchased securities (including the CUSIP number, if any), identify the Agency and the seller, and set forth

(a) the purchase date, (b) the purchase price, (c) the repurchase date, unless the transaction is to be terminable on demand, and (d) the pricing rate or repurchase price applicable to the transaction. Upon receipt, the confirmation shall be reviewed to insure that the terms contained therein correspond exactly to the terms negotiated by the parties. Any discrepancies appearing on the confirmation shall be conclusive grounds for terminating the repurchase agreement or renegotiating its terms, as may be appropriate. Upon a renegotiation of terms, a corrected confirmation shall be requested.

(Section V.C. amended by Board Resolution on July 20, 1995.)

- D. Special conditions for collateralized guaranteed investment contracts: The Agency may invest its assets in guaranteed investment contracts of longer than one (1) year with a select few of the highest quality foreign and domestic banks, domestic brokerage firms, or domestic insurance companies, as selected by the Agency upon the advice of its financial adviser. Such guaranteed investment contracts shall be secured by a perfected, first priority security interest in eligible collateral, as defined in Section V. The provider of the guaranteed investment contract and the Agency shall enter into a master guaranteed investment agreement, in a form approved by the State Treasurer, and/or other contracts or agreements as approved by the State Treasurer and the Attorney General and Reporter.

Eligible collateral shall have an initial market value of at least 102% of the principal amount of the cash investment. If the aggregate market value of the eligible collateral is less than 100% of the cash investment, then additional eligible collateral sufficient to bring the aggregate market value of all eligible collateral to at least 102% of the cash investment shall be required.

(Section V.D. added by Board Resolution on November 16, 1995.)

- VI. **MONITORING AND ADJUSTING THE PORTFOLIO:** On a routine basis, the contents of the portfolio, the available markets and the relative values of completing instruments will be monitored and the portfolio adjusted accordingly.
- VII. **INTERNAL CONTROLS:** The Agency shall establish a system of internal controls which shall be documented in writing. The controls shall be designed to prevent losses of funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the Agency. Controls deemed most important include: control of collusion, separation of duties, separating transaction authority from accounting and record keeping, custodial safekeeping, clear delegation of authority, written confirmation of telephone transactions, minimizing the number of authorized investment officials, documentation of transaction strategies, and code of ethics.

The Executive Director shall provide to the State Treasurer a copy of the report of internal controls submitted to the Comptroller of the Treasury in accordance with the Financial Integrity Act.

- VIII. **COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS:** Before investment of any Agency funds, a competitive "bid" process shall be conducted. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, bids will be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend (yield curve) analysis will be conducted to determine which maturities would be most advantageous. Bids will be requested for various options with regards to eligible investment instruments. The bid which provides the highest rate of return within the maturity required and within the parameters of these policies will be accepted. Records will be kept of the bids offered, the bids accepted and a brief explanation of the decision which was made regarding the investment. Exceptions to the competitive placement of Agency investments are permissible as market conditions warrant and will be documented in the Agency's files.
- IX. **BROKER/DEALER SELECTION AND REVIEW:** Repurchase agreements will only be transacted with primary government securities dealers that report to the New York Federal Reserve Bank and who complete the Agency's master repurchase agreement. The Agency shall periodically review the list of

primary dealers from the New York Federal Reserve Bank to determine which dealers have been added or deleted.

For purchase of securities on a delivery versus payment basis, any broker/dealer that gives priority to institutional trading over regular retail trading customers and exemplifies satisfactory performance in bidding and settlement of transactions will be authorized to bid on security acquisitions. An authorization letter (sample attached) will be sent to each authorized dealer. If a dealer is consistently unsuccessful in bidding and/or unsatisfactorily fulfills bids they have received, they will be removed from the approved list of dealers for six months. The list of approved broker/dealers shall be reviewed and updated periodically.

- X. **SAFEKEEPING:** All Agency investment securities shall be held by the Trustee or the State Treasurer. The party holding such securities shall issue a safekeeping receipt listing the specific instrument, rate, maturity and other pertinent information.

XI: **REPORTING**

Periodic: The Executive Director of the Tennessee Housing Development Agency shall submit a quarterly investment report to the Bond Finance Committee. This report will describe the portfolio activity during the period and compute the average yield and average maturity of the portfolio and list the acquisitions and dispositions during the quarter. The report shall summarize the investment strategies employed in the most recent period, describe the investment portfolios in terms of investment securities, maturities, yield and average maturity of the combined portfolios. A report will be presented of the pro rata debt service requirements by month for the next 12 months chronologized by debt service payment dates. Each report shall indicate any areas of policy concern and suggested or planned revision of investment strategies.

Annual: Within 90 days of the end of the fiscal year, the Executive Director of the Tennessee Housing Development Agency shall present a comprehensive annual report on the investment program and investment activity to the Bond Finance Committee. This report shall include twelve-month comparisons or return, shall suggest policies and improvements that might enhance the investment program, and include an investment plan for the ensuing fiscal year.

- XII. **DIVERSIFICATION:** The Tennessee Housing Development Agency should diversify investment portfolios in order to reduce the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. The following strategies and constraints shall apply:

- A. Portfolio maturities shall be staggered in a way that avoids undue concentrations of assets in a specific maturity sector. Maturities shall be selected which provide for stability of income and reasonable liquidity.
- B. It is the intent of this policy that sufficient investments be scheduled to mature to provide for the required liquidity for debt service and other expenditures per resolution requirements. A minimum of the pro rata cumulative debt service requirement at the end of each month for the then current bond year for each bond resolution must mature to meet the debt service payment dates. A schedule showing the cumulative debt service requirement by month shall be kept on file at the Agency.

In addition a minimum of five percent (5.00%) of the par value of total investments must mature within five years. No more than fifty percent (50.00%) of the par value of the combined portfolios can be invested in maturities of greater than fifteen (15) years without the approval of the Bond Finance Committee.

- XIII. **RISK TOLERANCE:** Investment risks can result from issuer defaults, market price changes, or various technical complications leading to temporary illiquidity. Portfolio diversification is employed as a way to control risk. Investment managers are expected to display prudence in the selection of securities, as a way to minimize default risk.

- XIV. **OPERATING PROCEDURES:** Written operating procedures to implement the provisions of the Agency investment policy shall be established. These procedures shall be subject to the review and approval of the State Treasurer.
- XV. **BOND RELATED FUNDS:** Funds held by the Agency under the 1974, 1981 and 1985 Resolutions shall be subject to the applicable Resolution requirement. Since the fund and account structure arises by Resolution, each type of receipt will be discussed rather than each fund and account.
- A. General Fund: This fund is the recipient of excess funds transferred from the 1974 Resolution Revenue Fund. These funds represent the amount remaining after setting aside the pro rata debt service requirement on each interest and principal payment date. Conversely, any deficit in the Revenue Fund needed to meet debt service is funded from the General Fund. Short term liquidity should be maintained in order to meet any monthly deficit that might occur in the Revenue Fund. Funds which are awaiting investment shall be invested in an interest-bearing account.
 - B. Undistributed Bond Proceeds Fund: These funds represent the proceeds from the sale of bonds, prior to being disbursed for the purpose of making mortgage loans, paying cost of issuance and capitalized interest. These funds shall be invested in eligible investments with maturities scheduled to assure that funds are available to fund loans. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - C. Servicing Agent Funds: These funds represent amounts remitted to servicing agents for payment of principal and interest on Agency mortgage loans. These funds are accumulated by the mortgage servicers and periodically remitted to the Trustee for deposit into the appropriate fund. Servicing agent funds, when remitted to the Trustee, shall be deposited in interest-bearing accounts with interest accruing to the Agency. These accounts shall be fully insured and/or collateralized to the benefit of the Agency. The Agency shall monitor such accounts and, when warranted, funds will be invested in securities with maturities dictated by the debt service requirements.
 - D. Debt Service Reserve Funds: These funds represent one (1) year of principal and interest payments on each Agency bond issue. Debt Service Reserve funds shall be invested in eligible investments with maturities as established by the Bond Finance Committee in consultation with the Agency's investment advisor/underwriter. All 1974 and 1981 Resolution Debt Service Reserve funds shall be invested by the Trustee. All 1985 Resolution Debt Service Reserve Funds shall be invested by the State Treasurer or the Trustee. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - E. Escrow Account Funds: These funds represent funds held in trust by the Agency for the purpose of paying taxes, insurance and other obligations for the mortgagors of multi-family projects financed under the 1974 Resolution. The funds are short to intermediate term in nature and are to be invested with a maturity schedule which ensures sufficient liquidity to honor the obligations of the Escrow Account Fund. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - F. Other Funds: These funds include all non-mortgage investment income (interest on non-mortgage investments, fees, penalties, etc.). These funds shall be deposited in accounts as provided in the Resolution fund structure.
- XVI. **OTHER AGENCY FUNDS:** Funds held by the Agency which are not being held under a specific bond resolution shall be subject to the following investment limitations and conditions.
- A. Assets Fund: These funds represent excess amounts which have been withdrawn from individual bond resolutions in accordance with the terms of the applicable resolution. In addition, at the direction of the Board, portions of the Assets Fund may be invested for the program purposes of the Agency. These funds provide for monthly interest income transfers to the Housing Program Fund.

- B. Housing Program Fund: These funds represents the operating reserves of the Agency which are used to fund Agency administrative costs, pay certain expenses of bond issues, make grants to eligible political subdivisions and not-for-profit corporations and support the growth of the Housing Program Reserve Fund.
- C. Housing Program Reserve Fund: This fund consists of excess funds transferred from the Assets Fund and the Housing Program Fund. Income from investments in this fund are transferred to the Housing Program Fund at least annually. In addition, at the direction of the Board, portions of the Housing Program Reserve Fund may be invested for the program purposes of the Agency.

XVII. ADOPTION

This investment policy was adopted by the Tennessee Housing Development Agency Board of Directors on September 14, 1993.

EXECUTIVE SUMMARY

THDA Finance Team:

Alice O. Williams, Chief Financial Officer

Wayne Beard, Finance Director

Joe Brown, Controller

**Important Transactions during the past Quarter:*

- 1) Bond Issue 2005-2 was closed on November 17, 2005. This issue provided the agency with \$101,606,800 in single family mortgage proceeds. UBS was the lead underwriter. The transaction produced maximum mortgage rates of 5.45% and 6.45%. As a result, THDA increased mortgage rates from 4.99% and 5.99% to 5.30% and 6.30%.
- 2) Mortgage production slowed slightly during the quarter, with \$64.2 million in applications. This was a 12.2% decrease from the previous quarter (\$73.1 million) but a 61.3% increase from the third quarter of 2004 (\$39.8 million). The slight drop in production from the previous quarter can be attributed to normal seasonal trends. The strong increase in year to year production can be attributed to an increase in outside rates, as well as continued outreach efforts by THDA staff.
- 3) Mortgage prepayments slowed, but still resulted in a significant cash flow to be reinvested until time to call bonds. During the past quarter \$40.9 million was received by the agency in prepayments. This was a 24.5% decrease from last quarter (\$54.2 million) and an 8.50% decrease from the fourth quarter of 2004 (\$44.7 million).
- 4) The agency announced on November 15, 2005 a bond call of \$40.6 million for January 1, 2006. These amounts were due to the prepayments collected in the previous quarter (referenced above). This bond call was in addition to \$54.2 million of regular debt service (bond principle and interest) due on January 1. Currently the agency strategy is to call bonds on a quarterly basis, but due to rising short term reinvestment rates (see #5) we are reviewing this strategy.
- 5) The Federal Reserve continued to increase short term interest rates. During the past quarter rates were raised to 4.0% in November and again on December 13 to 4.25%. These increases have enabled the agency to earn more on short-term investments. Current speculation is that the Fed could raise short term rates by as much as fifty basis points during the first quarter of 2006.

GENERAL FUND

DESCRIPTION

The General Fund was established under the 1974 Resolution and was funded from earnings above and beyond the debt cost of THDA Bond Issues that were done early in the existence of the agency (see discussion of float/equity funds under tab #5 in this report).

On December 31, 1998 mortgages from bond issue 1994-1 in the 1985 Resolution were transferred to the General Fund in the 1974 Resolution after the bonds from that issue were completely paid off. Prepayments and repayments from those mortgages are deposited into the General Fund.

The assets in the General Fund can be used for a variety of purposes. Some uses of the General Fund Assets have been:

- 1) Provide funding for special mortgage loan programs
- 2) Pre-fund mortgage loans pending the closing of a bond issue
- 3) Pay certain expenses connected to debt issuance and financial analysis
- 4) Grants – THDA's board approved an agency funded grant program in FY 2000.
- 5) Beginning in July, 2003 some funds were used to call higher coupon debt from other bond issues in the 1974 resolution.

LOAN FUNDS

DESCRIPTION

Proceeds from a new bond sale that are earmarked for funding mortgage loans are deposited into the Loan Fund. THDA invests these proceeds from the day of closing (the first day the funds are received) until the funds are needed for mortgage loans. Consideration must be given to the maintenance of liquidity so those funds are available as mortgage loans are funded.

A major challenge for THDA in managing the investments in the loan fund is minimizing “negative arbitrage”. This results because the rates that can be earned with a short-term investment instrument are usually less than the cost of the new long-term debt from which the proceeds derived.

Occasionally an amount is set aside from bond proceeds to cover this shortfall. This amount is called “capitalized interest”. Another method that is sometimes used to minimize or eliminate negative arbitrage is the purchasing of longer-term investments with higher rates in the loan fund. The intent would be to sell such investments when cash is needed either on the open market, or if advantageous, to other THDA funds that are expected to have a foreseeable need for such investments.

FLOAT/EQUITY FUNDS

DESCRIPTION

Float Funds are considered to be the portion of funds at any given time in the various funds and accounts that will be needed for the next scheduled semi-annual Debt Service payment or for bond call from mortgage prepayment proceeds. Any excess that accumulates in the accounts is considered *Equity Funds*. These funds represent the cumulative net gain in any fund or group of funds. For both the Float and Equity funds, THDA's investment objective is a balancing act: to maximize earnings while achieving sufficient liquidity at January 1 and July 1 to meet debt service and bond call requirements.

The following funds hold the Float/Equity funds:

Revenue Fund (1974 Resolution):

- Revenue Account
- Prepayment Account

Revenue Fund (1985 Resolution):

- Debt Service & Expense Account (DS&E)
- Non-Mortgage Receipts Account (NMR)

The chart below depicts where the General Bond Resolutions specify the different types of receipts be deposited and held:

	<u>1974 Resolution</u>		<u>1985 Resolution</u>	
	<u>Revenue Account</u>	<u>Pre-payment Account</u>	<u>DS&E Account</u>	<u>NMR Account</u>
Mortgage Loan Principal & Interest	X		X	
Prepayment & Foreclosure Receipts		X	X	
Interest on Non-Mortgage Investments	X			X

There is no compelling reason for the Resolutions to be structured differently at the present time. When the Agency began operations in 1974, funds were very limited and debt service was monitored monthly. Each month 1/12th of the annual Debt Service Requirement for the current year was required to be retained in the Revenue Fund and any excess was transferred to the General Fund. If less than the monthly requirement was collected in any month a transfer was made from the General Fund in the amount of that month's deficit. After THDA became financially stronger this requirement was removed in a revision of the 1974 Resolution.

DEBT SERVICE RESERVE FUNDS (DSRF)

DESCRIPTION

These funds have been set aside from prior bond proceeds, and represent the maximum annual debt service for the life of the bonds. The Debt Service Reserve requirement is by Resolution rather than bond issue. The calculation of the DSRF is performed by the Financial Advisor at the time of a new bond issue as well as annually and is based on amortized value rather than market value (pursuant to the terms of the General Bond Resolutions)

For most of THDA's history, the standard practice has been to invest the DSRF in investments with approximately the same maturity of the longest-term bond. This practice has been at the advice of Underwriters, Financial Advisors and Rating Agencies. However, beginning in 1993 when rates were at historic lows the Rating Agencies required substantially shorter maturity DSRF investment since a 30-year investment would lose substantial value if rates increased substantially. Therefore since that time investment decisions for these funds have been influenced by market conditions at the time of the investments.

A Debt Service Reserve Fund analysis was last done by CSG Advisors, Inc. in conjunction with bond issue 2003 series A (for the 1974 resolution) and bond issue 2005-2 (for the 1985 resolution). The result of this analysis was that THDA needed to increase the Debt Service Reserve Fund for the 1985 Resolution by \$845,532. As of these reports, the Debt Service Reserve Fund requirement was \$30,445,395 for the 1974 Resolution and \$117,414,471 for the 1985 Resolution.

Benchmarks:

NOTE: DSRF Investments represent investments funded throughout the history of THDA. As older bond issues under which DSRF investments were purchased were refunded, the DSRF investments were transferred to the refunding issues, and at times even to several issues. Because of this a benchmark comparison to other current rates would be meaningless.

ESCROW FUND

DESCRIPTION

THDA has established an escrow fund for the purpose of holding funds that do not belong to THDA but in which the agency has an interest.

The Escrow Fund in the 1974 Bond Resolution holds reserves and interest earnings for multi-family developments financed by THDA in the late 1970's and early 1980's. There are currently 32 multi-family mortgages outstanding and therefore 32 developments that have funds in the escrow account. THDA administers the federally funded Section 8 Project-based rental assistance program, and these 32 developments are part of that program.

Each month THDA receives mortgage payments from the properties. Out of these mortgage payments an amount is set aside and transferred to the escrow fund. Within the escrow fund amounts are allocated for the following purposes (distributions):

- Property taxes - paid on behalf of the property annually
- Insurance - paid on behalf of the property annually
- Replacement Reserves – paid as needed for capital improvements, etc. The property must request a distribution from these funds and THDA staff must review the request to ensure it is an appropriate use of the reserves.
- Earnings Distributions - The owners of these developments are allowed to withdraw a portion of their interest earnings at the end of each calendar year for earnings distributions for themselves and their partners.

THDA attempts to maximize earnings in this portfolio by investing most of the funds in longer-term instruments, while maintaining sufficient liquidity to meet the financial requirements of these distributions.

ARBITRAGE

DESCRIPTION

Arbitrage, in part is defined as “the simultaneous purchase and sale of the same or equivalent security in order to profit from price discrepancies”.

This relates to THDA as it is applied to the use of proceeds from tax-exempt bonds, specifically the use of such bond proceeds or earnings from such proceeds to purchase taxable non-mortgage investments. Any excess earnings over the cost of borrowing (bond rate) are arbitrage earnings and must be rebated to the Internal Revenue Service.

This is a net calculation and is computed annually. Attached is a spreadsheet showing the arbitrage liability by bond issue as of 6/30/05. Every five years on the anniversary date of each bond issue, for the life of the bond issue, cash settlement has to be made with the IRS. If earnings for a five-year period are less than what the investments would have earned at the bond rate, no payment is due the IRS. If the earnings are more than what would have been earned at the bond rate, cash payment of the excess must be paid to the IRS. THDA has contracted with Kutak Rock to make these complex calculations.

From an Investment management performance measurement standpoint, THDA knows that if there is a rebate liability for a bond issue, then the agency has maximized earnings for that particular issue. This is probably the best benchmark of all because as mentioned above any earnings in excess of bond cost cannot be retained by the agency.

- I. **SCOPE:** It is intended that this policy apply to the investment of all non-mortgage assets of the Tennessee Housing Development Agency (Agency), including those assets pledged to holders of the Agency's bonds.
- II. **AUTHORITY:** Section 5 of Chapter 900 of the Acts of 1988 (Tennessee Code Annotated, Section 13-23-112) requires the Agency to establish an investment policy for assets of the Agency. The State Treasurer is responsible for investing Agency assets in accordance with the duly adopted investment policy. The State Treasurer, in his sole discretion, may delegate to the Executive Director any portion of investment responsibilities deemed appropriate.
- III. **OBJECTIVES:**
- A. Safety of principal is the foremost objective, followed by liquidity and yield. Each investment transaction shall seek to first ensure that capital losses are avoided, whether they be from securities defaults or erosion of market value.
 - B. Investment decisions should not incur unreasonable investment risks in order to obtain current investment income.
 - C. The combined Agency portfolios shall remain sufficiently liquid to enable the Agency to meet all operating requirements.
 - D. Agency portfolios shall be designed to attain a market-average rate of return throughout budgetary and economic cycles, taking into account investment risk constraints, the cash flow characteristics of the Agency, and State law that restricts the placement of short-term funds.
 - E. Agency portfolios will be diversified to avoid incurring unreasonable and avoidable risks regarding specific security types or individual financial institutions.
 - F. While the Agency will not make investments for the purpose of trading or speculating as the dominant criterion, the Agency shall seek to enhance total portfolio return by means of active portfolio management. The prohibition of speculative investments precludes pursuit of gain or profit through unusual risk. However, trading in response to changes in market value or market direction is warranted under active portfolio management.
 - G. All participants in the investment process shall act responsibly as custodians of the public trust. Investment officials shall recognize that the investment portfolio is subject to public review and evaluation. The overall program shall be designed and managed with a degree of professionalism that is worthy of the public trust.
- IV. **PRUDENCE:** The standard of prudence to be used by all officials responsible for the investment of Agency assets shall be the "prudent man rule" which obligates a fiduciary to ensure that:
- ". . . investment shall be made with the exercise of that degree of judgment and care, under circumstances then prevailing, which persons of prudence, discretion, and intelligence exercise in the management of their own affairs, not for speculation but for investment, considering the probable safety of their capital as well as the probably income to be derived."
- V. **ELIGIBLE INVESTMENTS:** Eligible investments for Agency assets shall include only investment instruments authorized for state funds pursuant to Tennessee Code Annotated, Section 9-4-602 and investments in the State Pooled Investment Fund established pursuant to Tennessee Code Annotated, Section 9-4-603. To the extent Agency assets are invested in certificates of deposit, such investment shall be accomplished through participation in the State Pooled Investment Fund. To the extent the Agency's eligible investments must be secured, "eligible collateral" acceptable as such security may include any items defined as eligible collateral in Tennessee Code Annotated Section 9-4-103 or repurchase agreements that meet all requirements of Section V.C. The Agency, at its option or as required under its bond

resolutions or other agreements with bondholders, may select or further restrict the types of eligible investments or the types of eligible collateral that may be used or may further restrict the levels of valuation of eligible collateral.

- A. Investment in U.S. government securities may constitute one hundred percent (100%) of the portfolio due to the absence of credit risk in this market.
- B. Securities shall be purchased through authorized broker/dealers for the security to be acquired. All transactions will be executed on a delivery versus payment basis. Due bills or notes are not acceptable as collateral in lieu of the purchased security.
- C. The following terms and conditions shall apply to investments in repurchase agreements:
 - 1. The seller and the Agency shall enter into a master repurchase agreement in a form approved by the State Treasurer, and the Attorney General and Reporter.
 - 2. Securities purchased under the repurchase agreement shall be limited to obligations of the United States Government or its agencies.
 - 3. At the time of purchase, the market value of the securities shall be equal to or greater than one hundred two percent (102%) of the cash investment.
 - 4. Securities shall be marked-to-market daily and shall be maintained at a value equal to or greater than the original cash investment amount, including accrued interest on such amount.
 - 5. The seller and the Agency may enter into an agreement with an independent custodian bank ("Custodian") in a form approved by the State Treasurer, and the Attorney General and Reporter pursuant to which the Custodian will provide transfer and safekeeping services for all securities and/or cash in connection with all repurchase transactions governed by the master repurchase agreement. For purposes of this provision, "independent custodian bank" means a bank which is not related to the seller nor the Agency through shared ownership or control.
 - 6. All securities purchased under a repurchase agreement shall be held in an account of the Agency under the control of either the Trustee or the State Treasurer, unless the seller and the Agency have entered into a custodial agreement pursuant to Paragraph 5 above. In such event, the securities shall be held in an account of the Agency with the Custodian.
 - 7. The seller may, at any time, substitute other securities or equal or greater market value for any purchased securities provided such other securities are obligations of the United States Government or its agencies.
 - 8. Repurchase agreements may be entered into only with sellers approved for use by Treasury Department portfolio managers, unless an exception is granted by the Bond Finance Committee.
 - 9. The maturity date of the securities purchased under a repurchase agreement shall exceed the term of the repurchase agreement. All securities purchased by the Agency shall be delivered simultaneously against payment to either the State Treasurer, or to an account of the Agency at the Trustee or the Custodian or, in the case of definitive securities, as provided in the master repurchase agreement.
 - 10. The transactions under each individual repurchase agreement shall be confirmed by the seller to the Agency. Each confirmation shall clearly describe the purchased securities (including the CUSIP number, if any), identify the Agency and the seller, and set forth

(a) the purchase date, (b) the purchase price, (c) the repurchase date, unless the transaction is to be terminable on demand, and (d) the pricing rate or repurchase price applicable to the transaction. Upon receipt, the confirmation shall be reviewed to insure that the terms contained therein correspond exactly to the terms negotiated by the parties. Any discrepancies appearing on the confirmation shall be conclusive grounds for terminating the repurchase agreement or renegotiating its terms, as may be appropriate. Upon a renegotiation of terms, a corrected confirmation shall be requested.

(Section V.C. amended by Board Resolution on July 20, 1995.)

- D. Special conditions for collateralized guaranteed investment contracts: The Agency may invest its assets in guaranteed investment contracts of longer than one (1) year with a select few of the highest quality foreign and domestic banks, domestic brokerage firms, or domestic insurance companies, as selected by the Agency upon the advice of its financial adviser. Such guaranteed investment contracts shall be secured by a perfected, first priority security interest in eligible collateral, as defined in Section V. The provider of the guaranteed investment contract and the Agency shall enter into a master guaranteed investment agreement, in a form approved by the State Treasurer, and/or other contracts or agreements as approved by the State Treasurer and the Attorney General and Reporter.

Eligible collateral shall have an initial market value of at least 102% of the principal amount of the cash investment. If the aggregate market value of the eligible collateral is less than 100% of the cash investment, then additional eligible collateral sufficient to bring the aggregate market value of all eligible collateral to at least 102% of the cash investment shall be required.

(Section V.D. added by Board Resolution on November 16, 1995.)

- VI. **MONITORING AND ADJUSTING THE PORTFOLIO:** On a routine basis, the contents of the portfolio, the available markets and the relative values of completing instruments will be monitored and the portfolio adjusted accordingly.
- VII. **INTERNAL CONTROLS:** The Agency shall establish a system of internal controls which shall be documented in writing. The controls shall be designed to prevent losses of funds arising from fraud, employee error, misrepresentation by third parties, unanticipated changes in financial markets, or imprudent actions by employees and officers of the Agency. Controls deemed most important include: control of collusion, separation of duties, separating transaction authority from accounting and record keeping, custodial safekeeping, clear delegation of authority, written confirmation of telephone transactions, minimizing the number of authorized investment officials, documentation of transaction strategies, and code of ethics.

The Executive Director shall provide to the State Treasurer a copy of the report of internal controls submitted to the Comptroller of the Treasury in accordance with the Financial Integrity Act.

- VIII. **COMPETITIVE SELECTION OF INVESTMENT INSTRUMENTS:** Before investment of any Agency funds, a competitive "bid" process shall be conducted. If a specific maturity date is required, either for cash flow purposes or for conformance to maturity guidelines, bids will be requested for instruments which meet the maturity requirement. If no specific maturity is required, a market trend (yield curve) analysis will be conducted to determine which maturities would be most advantageous. Bids will be requested for various options with regards to eligible investment instruments. The bid which provides the highest rate of return within the maturity required and within the parameters of these policies will be accepted. Records will be kept of the bids offered, the bids accepted and a brief explanation of the decision which was made regarding the investment. Exceptions to the competitive placement of Agency investments are permissible as market conditions warrant and will be documented in the Agency's files.
- IX. **BROKER/DEALER SELECTION AND REVIEW:** Repurchase agreements will only be transacted with primary government securities dealers that report to the New York Federal Reserve Bank and who complete the Agency's master repurchase agreement. The Agency shall periodically review the list of

primary dealers from the New York Federal Reserve Bank to determine which dealers have been added or deleted.

For purchase of securities on a delivery versus payment basis, any broker/dealer that gives priority to institutional trading over regular retail trading customers and exemplifies satisfactory performance in bidding and settlement of transactions will be authorized to bid on security acquisitions. An authorization letter (sample attached) will be sent to each authorized dealer. If a dealer is consistently unsuccessful in bidding and/or unsatisfactorily fulfills bids they have received, they will be removed from the approved list of dealers for six months. The list of approved broker/dealers shall be reviewed and updated periodically.

- X. **SAFEKEEPING:** All Agency investment securities shall be held by the Trustee or the State Treasurer. The party holding such securities shall issue a safekeeping receipt listing the specific instrument, rate, maturity and other pertinent information.

XI: **REPORTING**

Periodic: The Executive Director of the Tennessee Housing Development Agency shall submit a quarterly investment report to the Bond Finance Committee. This report will describe the portfolio activity during the period and compute the average yield and average maturity of the portfolio and list the acquisitions and dispositions during the quarter. The report shall summarize the investment strategies employed in the most recent period, describe the investment portfolios in terms of investment securities, maturities, yield and average maturity of the combined portfolios. A report will be presented of the pro rata debt service requirements by month for the next 12 months chronologized by debt service payment dates. Each report shall indicate any areas of policy concern and suggested or planned revision of investment strategies.

Annual: Within 90 days of the end of the fiscal year, the Executive Director of the Tennessee Housing Development Agency shall present a comprehensive annual report on the investment program and investment activity to the Bond Finance Committee. This report shall include twelve-month comparisons or return, shall suggest policies and improvements that might enhance the investment program, and include an investment plan for the ensuing fiscal year.

- XII. **DIVERSIFICATION:** The Tennessee Housing Development Agency should diversify investment portfolios in order to reduce the risk of loss resulting from over concentration of assets in a specific maturity, a specific issuer, or a specific class of securities. The following strategies and constraints shall apply:

- A. Portfolio maturities shall be staggered in a way that avoids undue concentrations of assets in a specific maturity sector. Maturities shall be selected which provide for stability of income and reasonable liquidity.
- B. It is the intent of this policy that sufficient investments be scheduled to mature to provide for the required liquidity for debt service and other expenditures per resolution requirements. A minimum of the pro rata cumulative debt service requirement at the end of each month for the then current bond year for each bond resolution must mature to meet the debt service payment dates. A schedule showing the cumulative debt service requirement by month shall be kept on file at the Agency.

In addition a minimum of five percent (5.00%) of the par value of total investments must mature within five years. No more than fifty percent (50.00%) of the par value of the combined portfolios can be invested in maturities of greater than fifteen (15) years without the approval of the Bond Finance Committee.

- XIII. **RISK TOLERANCE:** Investment risks can result from issuer defaults, market price changes, or various technical complications leading to temporary illiquidity. Portfolio diversification is employed as a way to control risk. Investment managers are expected to display prudence in the selection of securities, as a way to minimize default risk.

- XIV. **OPERATING PROCEDURES:** Written operating procedures to implement the provisions of the Agency investment policy shall be established. These procedures shall be subject to the review and approval of the State Treasurer.
- XV. **BOND RELATED FUNDS:** Funds held by the Agency under the 1974, 1981 and 1985 Resolutions shall be subject to the applicable Resolution requirement. Since the fund and account structure arises by Resolution, each type of receipt will be discussed rather than each fund and account.
- A. General Fund: This fund is the recipient of excess funds transferred from the 1974 Resolution Revenue Fund. These funds represent the amount remaining after setting aside the pro rata debt service requirement on each interest and principal payment date. Conversely, any deficit in the Revenue Fund needed to meet debt service is funded from the General Fund. Short term liquidity should be maintained in order to meet any monthly deficit that might occur in the Revenue Fund. Funds which are awaiting investment shall be invested in an interest-bearing account.
 - B. Undistributed Bond Proceeds Fund: These funds represent the proceeds from the sale of bonds, prior to being disbursed for the purpose of making mortgage loans, paying cost of issuance and capitalized interest. These funds shall be invested in eligible investments with maturities scheduled to assure that funds are available to fund loans. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - C. Servicing Agent Funds: These funds represent amounts remitted to servicing agents for payment of principal and interest on Agency mortgage loans. These funds are accumulated by the mortgage servicers and periodically remitted to the Trustee for deposit into the appropriate fund. Servicing agent funds, when remitted to the Trustee, shall be deposited in interest-bearing accounts with interest accruing to the Agency. These accounts shall be fully insured and/or collateralized to the benefit of the Agency. The Agency shall monitor such accounts and, when warranted, funds will be invested in securities with maturities dictated by the debt service requirements.
 - D. Debt Service Reserve Funds: These funds represent one (1) year of principal and interest payments on each Agency bond issue. Debt Service Reserve funds shall be invested in eligible investments with maturities as established by the Bond Finance Committee in consultation with the Agency's investment advisor/underwriter. All 1974 and 1981 Resolution Debt Service Reserve funds shall be invested by the Trustee. All 1985 Resolution Debt Service Reserve Funds shall be invested by the State Treasurer or the Trustee. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - E. Escrow Account Funds: These funds represent funds held in trust by the Agency for the purpose of paying taxes, insurance and other obligations for the mortgagors of multi-family projects financed under the 1974 Resolution. The funds are short to intermediate term in nature and are to be invested with a maturity schedule which ensures sufficient liquidity to honor the obligations of the Escrow Account Fund. Funds which are awaiting investment or disbursement shall be invested in an interest-bearing account.
 - F. Other Funds: These funds include all non-mortgage investment income (interest on non-mortgage investments, fees, penalties, etc.). These funds shall be deposited in accounts as provided in the Resolution fund structure.
- XVI. **OTHER AGENCY FUNDS:** Funds held by the Agency which are not being held under a specific bond resolution shall be subject to the following investment limitations and conditions.
- A. Assets Fund: These funds represent excess amounts which have been withdrawn from individual bond resolutions in accordance with the terms of the applicable resolution. In addition, at the direction of the Board, portions of the Assets Fund may be invested for the program purposes of the Agency. These funds provide for monthly interest income transfers to the Housing Program Fund.

- B. Housing Program Fund: These funds represents the operating reserves of the Agency which are used to fund Agency administrative costs, pay certain expenses of bond issues, make grants to eligible political subdivisions and not-for-profit corporations and support the growth of the Housing Program Reserve Fund.
- C. Housing Program Reserve Fund: This fund consists of excess funds transferred from the Assets Fund and the Housing Program Fund. Income from investments in this fund are transferred to the Housing Program Fund at least annually. In addition, at the direction of the Board, portions of the Housing Program Reserve Fund may be invested for the program purposes of the Agency.

XVII. ADOPTION

This investment policy was adopted by the Tennessee Housing Development Agency Board of Directors on September 14, 1993.

EXECUTIVE SUMMARY

THDA Finance Team:

Alice O. Williams, Chief Financial Officer

Wayne Beard, Finance Director

Joe Brown, Controller

**Important Transactions during the past Quarter:*

- 1) Final plans were made to price bond issue 2005-2. This pricing took place October 26 & 27th. Details will be reported in next quarter's report.
- 2) Mortgage production was strong during the quarter, with \$73.1 million in applications. This was a 7.7% decrease from the previous quarter (\$79.2 million) but a 37.5% increase from the third quarter of 2004 (\$53.2 million). The agency was able to invest a significant portion of bond issue 2005-1 in mortgages. The strong production was due to an increase in outside rates, as well as continued outreach efforts by THDA staff.
- 3) Mortgage prepayments were steady, resulting in a significant cash flow for THDA to re-invest until time to call bonds. During the past quarter \$54.2 million was received by the agency in prepayments. This was a 6.1% increase from last quarter (\$51.1 million) and a 1.5% increase from the third quarter of 2004 (\$53.4 million).
- 4) The agency announced on August 15, 2005 a bond call of \$55.1 million for October 1, 2005. These amounts were due to the prepayments collected in the previous quarter (referenced above). Currently the agency strategy is to call bonds on a quarterly basis, but due to rising short term reinvestment rates (see #5) we are reviewing this strategy.
- 5) The Federal Reserve continued to increase short term interest rates. During the past quarter rates were raised to 3.5% in August and again on September 20 to 3.75%. These increases have enabled the agency to earn more on short-term investments. There is speculation that the Fed will continue to raise short term rates during 2005.

GENERAL FUND

DESCRIPTION

The General Fund was established under the 1974 Resolution and was funded from earnings above and beyond the debt cost of THDA Bond Issues that were done early in the existence of the agency (see discussion of float/equity funds under tab #5 in this report).

On December 31, 1998 mortgages from bond issue 1994-1 in the 1985 Resolution were transferred to the General Fund in the 1974 Resolution after the bonds from that issue were completely paid off. Prepayments and repayments from those mortgages are deposited into the General Fund.

The assets in the General Fund can be used for a variety of purposes. Some uses of the General Fund Assets have been:

- 1) Provide funding for special mortgage loan programs
- 2) Pre-fund mortgage loans pending the closing of a bond issue
- 3) Pay certain expenses connected to debt issuance and financial analysis
- 4) Grants – THDA's board approved an agency funded grant program in FY 2000.
- 5) Beginning in July, 2003 some funds were used to call higher coupon debt from other bond issues in the 1974 resolution.

LOAN FUNDS

DESCRIPTION

Proceeds from a new bond sale that are earmarked for funding mortgage loans are deposited into the Loan Fund. THDA invests these proceeds from the day of closing (the first day the funds are received) until the funds are needed for mortgage loans. Consideration must be given to the maintenance of liquidity so those funds are available as mortgage loans are funded.

A major challenge for THDA in managing the investments in the loan fund is minimizing “negative arbitrage”. This results because the rates that can be earned with a short-term investment instrument are usually less than the cost of the new long-term debt from which the proceeds derived.

Occasionally an amount is set aside from bond proceeds to cover this shortfall. This amount is called “capitalized interest”. Another method that is sometimes used to minimize or eliminate negative arbitrage is the purchasing of longer-term investments with higher rates in the loan fund. The intent would be to sell such investments when cash is needed either on the open market, or if advantageous, to other THDA funds that are expected to have a foreseeable need for such investments.

FLOAT/EQUITY FUNDS

DESCRIPTION

Float Funds are considered to be the portion of funds at any given time in the various funds and accounts that will be needed for the next scheduled semi-annual Debt Service payment or for bond call from mortgage prepayment proceeds. Any excess that accumulates in the accounts is considered *Equity Funds*. These funds represent the cumulative net gain in any fund or group of funds. For both the Float and Equity funds, THDA's investment objective is a balancing act: to maximize earnings while achieving sufficient liquidity at January 1 and July 1 to meet debt service and bond call requirements.

The following funds hold the Float/Equity funds:

Revenue Fund (1974 Resolution):

- Revenue Account
- Prepayment Account

Revenue Fund (1985 Resolution):

- Debt Service & Expense Account (DS&E)
- Non-Mortgage Receipts Account (NMR)

The chart below depicts where the General Bond Resolutions specify the different types of receipts be deposited and held:

	<u>1974 Resolution</u>		<u>1985 Resolution</u>	
	<u>Revenue Account</u>	<u>Pre-payment Account</u>	<u>DS&E Account</u>	<u>NMR Account</u>
Mortgage Loan Principal & Interest	X		X	
Prepayment & Foreclosure Receipts		X	X	
Interest on Non-Mortgage Investments	X			X

There is no compelling reason for the Resolutions to be structured differently at the present time. When the Agency began operations in 1974, funds were very limited and debt service was monitored monthly. Each month 1/12th of the annual Debt Service Requirement for the current year was required to be retained in the Revenue Fund and any excess was transferred to the General Fund. If less than the monthly requirement was collected in any month a transfer was made from the General Fund in the amount of that month's deficit. After THDA became financially stronger this requirement was removed in a revision of the 1974 Resolution.

DEBT SERVICE RESERVE FUNDS (DSRF)

DESCRIPTION

These funds have been set aside from prior bond proceeds, and represent the maximum annual debt service for the life of the bonds. The Debt Service Reserve requirement is by Resolution rather than bond issue. The calculation of the DSRF is performed by the Financial Advisor at the time of a new bond issue as well as annually and is based on amortized value rather than market value (pursuant to the terms of the General Bond Resolutions)

For most of THDA's history, the standard practice has been to invest the DSRF in investments with approximately the same maturity of the longest-term bond. This practice has been at the advice of Underwriters, Financial Advisors and Rating Agencies. However, beginning in 1993 when rates were at historic lows the Rating Agencies required substantially shorter maturity DSRF investment since a 30-year investment would lose substantial value if rates increased substantially. Therefore since that time investment decisions for these funds have been influenced by market conditions at the time of the investments.

A Debt Service Reserve Fund analysis was last done by CSG Advisors, Inc. in conjunction with bond issue 2003 series A (for the 1974 resolution) and bond issue 2005-1 (for the 1985 resolution). The result of this analysis was that THDA currently has adequate funding in the Debt Service Reserve fund. As of these reports the Debt Service Reserve Fund requirement was \$30,445,395 for the 1974 Resolution and \$116,460,762 for the 1985 Resolution.

Benchmarks:

NOTE: DSRF Investments represent investments funded throughout the history of THDA. As older bond issues under which DSRF investments were purchased were refunded, the DSRF investments were transferred to the refunding issues, and at times even to several issues. Because of this a benchmark comparison to other current rates would be meaningless.

ESCROW FUND

DESCRIPTION

THDA has established an escrow fund for the purpose of holding funds that do not belong to THDA but in which the agency has an interest.

The Escrow Fund in the 1974 Bond Resolution holds reserves and interest earnings for multi-family developments financed by THDA in the late 1970's and early 1980's. There are currently 32 multi-family mortgages outstanding and therefore 32 developments that have funds in the escrow account. THDA administers the federally funded Section 8 Project-based rental assistance program, and these 32 developments are part of that program.

Each month THDA receives mortgage payments from the properties. Out of these mortgage payments an amount is set aside and transferred to the escrow fund. Within the escrow fund amounts are allocated for the following purposes (distributions):

- Property taxes - paid on behalf of the property annually
- Insurance - paid on behalf of the property annually
- Replacement Reserves – paid as needed for capital improvements, etc. The property must request a distribution from these funds and THDA staff must review the request to ensure it is an appropriate use of the reserves.
- Earnings Distributions - The owners of these developments are allowed to withdraw a portion of their interest earnings at the end of each calendar year for earnings distributions for themselves and their partners.

THDA attempts to maximize earnings in this portfolio by investing most of the funds in longer-term instruments, while maintaining sufficient liquidity to meet the financial requirements of these distributions.

ARBITRAGE

DESCRIPTION

Arbitrage, in part is defined as “the simultaneous purchase and sale of the same or equivalent security in order to profit from price discrepancies”.

This relates to THDA as it is applied to the use of proceeds from tax-exempt bonds, specifically the use of such bond proceeds or earnings from such proceeds to purchase taxable non-mortgage investments. Any excess earnings over the cost of borrowing (bond rate) are arbitrage earnings and must be rebated to the Internal Revenue Service.

This is a net calculation and is computed annually. Attached is a spreadsheet showing the arbitrage liability by bond issue as of 6/30/05. Every five years on the anniversary date of each bond issue, for the life of the bond issue, cash settlement has to be made with the IRS. If earnings for a five-year period are less than what the investments would have earned at the bond rate, no payment is due the IRS. If the earnings are more than what would have been earned at the bond rate, cash payment of the excess must be paid to the IRS. THDA has contracted with Kutak Rock to make these complex calculations.

From an Investment management performance measurement standpoint, THDA knows that if there is a rebate liability for a bond issue, then the agency has maximized earnings for that particular issue. This is probably the best benchmark of all because as mentioned above any earnings in excess of bond cost cannot be retained by the agency.
